1

the concept concept

what good is god as a concept

to others

communicational object

storytelling worthy

the concept concept

and I were alone

[when]

and with no word nor a soul near to communicate with

lightning struck during a flood

I like your hat

and the way you wear your hat

I like your hat

and the fabric the pattern is exquisite

do you like my hat I have to ask because I like your hat

[never mind]

I like your hat would you call it a bonnet

I like your hat

did I buy you your hat I cannot remember

2

god is a concept

and left material as all concepts do

the agreeable reverent agree on language and
what is previously a concept nor can be known

is operative

[god]

to regard what force is mightier upon other forces I cannot say
and reverence

there is a greater authority

[the cause of natural law

[and the rain is explained

[and the seasons are explained

[and a timeline for old species is explained

nor divine to explain

[cause is divine

[and what is considered 'good' by the reverent

[a matter of public opinion

[nor actual

[good is subjective and can only be explained

3

god is a concept

and when the rains and upon a wetness a concept is invented

the induction of god into the dictionary without evidence

the sundown is evidence is not the sundown evidence like beauty
and the sundown were recognized and all of the forces of the sundown were recognized
[thus]

god were recognized
for absence of word

—

4

mortal god

immortal god

a] a god reports to another god is not god

—

5

and the concept pantheism
who can argue with the divinity of existence

and the concept panentheism
nor less to indicate the interiors of materials and immaterials
who can argue with the divinity of existence

—

6

and whether ornithological birds believe in god
nor my interest
and whether canines believe in god
nor my interest

and the fitted animal for the environment with
the life span

whether the fitted animal for the environment believes in god

I like your hat

exposure to the elements is a common reason for wearing an hat

and spf fifteen sunblock for lips is good for anytime of year

I like your hat

appears to be fitted

yup

gift shop I suppose all the sizes I imagine

they still one hundred and fifty dollars per
fitted hat

some say cap

maybe the player's official jerseys are one hundred fifty
the button up ones meant for cold day undershirts and warm day undershirts

the ones without the sleeves and bring your own undershirt

7

the concept concept

the linguist

concept is an object of language

and there is no subject

excepting

the linguist

and what importance were

the concept concept

and to mention there are several

[concepts]

without material

good for grammar

[best] is a concept and with reference comparatively

[hungry] is a concept and with personal relation to the consumption of food

[beauty] is a concept and to be astounded and to be fortunate to be among reference

—

8

the conceptualist

conceptualism is social as language is social

to call a [thing] [eg shovel]

is conceptual

to call a [thing] [eg fishing ie verb]

is conceptual

were there no silence while [fishing]

and to receive what is called [eg the spoken or written shovel]

is conceptual

is answerable

9

etiquette

a morality of social intercourse

and handshake were a concept

and without spokenness

—

10

purpose of language

to fall in love

to prosper to prosperity were ends

to assume

to plan

and the alphabet for penmanship for

calligraphy

—

11

a concept were and now

a difference because

a colloquial usage

an absence of usage and reapplication of the same concept after

a dormancy

and were a corporate registrar to register a concept

what of common usage of the concept

I like your hat

nice hat pete

where did you get your hat

I forgot to ask I suppose

because

I already have a nice handmade deerskin hat meant for russian winters with silk lining and

I did not mention

because

I did not want to brag though

pete had a nice hat

mine was from minnesota where russians are common

lapis lazuli may be soft
carveable stone about
a silver setting like jewelery for a treasure box

12
the transience of word meaning is
a poem stolen

—

13
the greatest concept
the concept which contains other concept

and the invented

[to say]
[to regard]

in conversation and again
used in conversation

14
were silence conceptual
the concept silence

and were silence as silent with one's eyes closed

and the meditative
the introduced silence

and nature called silence when the wind is recognized

and the library

and the church

—

quiet contemplative quiet

the silence of a basement and there were no windows

the silence of a cave two miles into
with flashlight
and there is no sound and constant temperature year round

15

concept

protohistory is a concept and prefix proto attached to the concept history

protohistory

the invention the experimental history like revisionism

[that] a new history introduced make cause for a future

—

were popular culture at the bookstore [perhaps]

decides what is sold is important and

the outstanding remains as historical revisionism in twenty years

protohistory and revisionism are history department concepts as for their worth and

are philosophy department concepts

as they are conceptual

16

protohouse

the experimental house

prototype

the first

[experimental]

[model]

17

were to call a name

[title]

the central nervous system

andwere thirty two vertebrae

seven regions and cranium

andwere gray matter

a lobes

a corpus collosum

[title] to each the physical aspects of the brain

is mnemonic

rote

nor turquoise and the color of turquoise

lapis lazuli is teal

lapis lazuli is fuschia were fuschia the same

101

geology

is

metaphoric igneous sedimentary

igneous is the hardest moh

blue and clear

the weekly meeting in philosophy subject is

metaphoric geologies

and the carved animal as voodoo

102

the fetish

tickled the palm of her hand

103

the fetish carved on a nice day by the frigid authoritarian matriarch
and yesterday's fire smoldering

there are deadlines to meet and

the beeded pig inventory is down

and a new deer needs to be killed

whether a war in europe or no a new deer needs to be killed

104

when there were no radios [because]

the liberation theologians had not delivered the order of
transistor radios

before digital broadcasting

to every school age child as was [the important idea of the time]

105

the fetish precedes weddedness

the particular fetish is her interest or her disinterest

95
the dead cannot be conditioned
the dead serve no useful social purpose

excepting proof

96
lapis lazuli
is a geological stone polished
blue

the bolo tie
the white dry cleaned dress shirt

to coffee

afterwhich ice cream
chocolate ice cream with cayenne pepper
inna cone
to sit on the curb the ice cream
drips nor staining the eator

97
lapis lazuli is the color of her lips after
eating bubble gum ball ice cream

98
lapis lazuli is the color of a lagoon

99
lapis lazuli is
the color of the sky

100
lapis lazuli
is a garden flower

lapis lazuli is epsom salt in a white bowl

lapis lazuli is clear like a diamond

lapis lazuli
nor a ruby

and those of particular conversational interest may agree on language foundationally
[that] anatomy be addressed in glossic measure

18
perplexity is a concept
to introduce perplexity
to be perplexed

perplex is an active verb
one who is perplexed may have been brought to perplexity

by the perplexer

andwere perplexity the ends of instruction
there may or may not be an object to the instruction
were plexity the curriculum diffusion of interest were curriculum

nor manysidedness of interest to regard perplexity within a lesson

rather
diffusion of interest were curriculum
and I have a question do I not have a question

[were perplexity introduced]
[and class is fifty minutes long]

—

and what is the difference atween morals and ethics
and I am one to ask questions when I have an interest in asking a question

ethics is related to united states currency is an answer I arrived at and
morals are the foundations of ethics

—

andwere perplexity an allowance
andwere tuition given to be perplexed one assumes an expectations of what is introduced
by the teaching faculty
one agrees to a teaching faculty's presentation of perplexity as well as their own response
to the introduced perplexity

—

perplexity is a concept nor introduced by word necessarily by the perplexor

andwere ethics to regard professional environments and those with formal potentia
to introduce perplexity
andwere morals to speak from a lens

andwere perplexity standards boards eventual were there malfeasance
were there interest were perplexity introduced
in proper

19
were there hierarchy to concepts

the population may regard

andwere twenty six letters to alphabetize were order

20
the population andwith mutual [language]

21
the population in _
andthe dictionary of education
andthe dictionary of philosophy
andthe dictionary of anatomy

were unique dewey decimal numbers were academic

22
the population as finite therewere those in agreement upon [language]
foundational to the [concept] [progress] andwere [progress] introduced
(strippings of seed money) [thus]

comprehensive within a finite population may be achievable

establishing: physical and demographic parameters of the population
and what may or may not be desirable to the population [comprehensive]
may or may not be a question of governance model

in the late nineteen forties and fifties therewere federal legislation
to install electrical power lines to [all] areas in america including remote rural areas

in the nineteen fifties therewere a liberation theologian priest
from austria in central america [ilich] said and wrote:
[all] children should have a transistor radio

is policy to regard an idea and a population and advocacy
andwere policy upon having distributed the transistor radios to evaluate
the importance of transistor radios for [all] children

andwere the wood plank casket of the west
andwere the wood cross atop the dug grave

the temporal
like the degradation of the wood cross like the degradation of the stone cross at arlington

the temporal
andwere life the lifespan of an human being is seventy six point one years mentions a
public relations official for the american medical association on nbc

the temporal
there were [times] I remember [times]

the temporal
andwere fashions the first funeral I ever attended was in the seventies and ties sure were
wide

the temporal
and what does fade like color in the sun

the temporal
and water evaporates and water turns to snow

there are greater environments there are greater conditions say
affective

the daily news is social
the clouds will exist were people to become extinct

people are shaped by their environment
and to shape an environment like an architect like a city planner like an artist of a variety
is I to say nature is not changed were a landscaped park to exist within a municipality or
elsewhere

nature is separate from man
is mans' overpopulation is mans' overarchitecturization is his draw from nature nature is
only occluded

ralph waldo emerson mentions civilization builds erodes builds
thousands of years again and again

the temporal
pleasure is temporal

pain is temporal conditions a person to know the stove is off
were a lesson incomplete

91
 it were a pickaxe for gold
 among garden tools

the bit nugget
 gold is soft

92
 iron pyrite fool's gold and sentiment
 flint and steel
 the fire

magnesium ten thousand degrees combustible
 flint and steel
 kinling

93
 what becomes of death
 and were I certain

the clouds are dark
 and death is still

the drowning
 the misspent firearm
 the aged
 the desert exposure

death is a condition
 death is inanimacy

and there were another generation given love
 were a parents' promise

94
 death is casketed
 dressed in modest clothes

for eternity
 were galileo to be buried with his daughter

the stone crypt
 mounted in carved stone lid atop

23
 the [operative] and with several denotations

the proto the experimental
 the specific range of [eg] acceptability in regards to statistical evaluation formative
 summative

an identification of [operative] may be utilitarian in nature as the [operative concept] is
 framed and may or may not be addressed

24
 on the concept of money being stupid

money is paper and has no intelligence
 money is metallurgy and has no intelligence
 money as dollar amount within a financial institution has no intelligence

and debt is stupid for similar reasons

25
 what can be eaten with a concept

there were a seed into the earth in spring
 were september and a stalk of corn
 pulled
 boiled
 buttered
 salted

corn can be eaten with a concept

is the agreement between the seed lot the bag of corn and a dollar made of paper

26
 paper is cellulitic of trees and would not be good for digestive health
 the token trade

the paper dollar
 for a material worth of retailism were there
 agreement

the retailer and the individual with the dollar is

barter excepting
 money is conceptual and is not material value trade for material value rather

the transient tokenism of the dollar as agreeable is acceptable to the seedlot as is
the price

—

and barter [economy] has no dollar

and only token economy has dollar

27

the hedon
the sadist
the masochist

nor

and only the hedon
were the hourless beach andwith
the sound of water lapping

to fall asleep

by

near sundown a sand cools to touch

28

beautiful in himself nor in respect of anything else
[pulcherrimus (et) superpulcher]
[Aquinas]

nor I am familiar with polysemous polysemy

29

and the semen
the etymologic semen
o the semen

etio is a prefix

et al

were my favorite prefix proto

and the seminal
and the seminary

84

and the smug
the eye roller one

[they just pile up] [they need to be addressed]

of the dead dessication is reserved for the dead

85

and they smell after a while
they must smell

can they be sprayed with embalming fluid or something

86

bird shadow
on a wall

87

and her distant farm
what memory
and the city

88

she knew
what produce is better than others

like the tomato proper
red

89

cars pass by with noise and the sun
crests

the lighted day

90

the topography of the train from
chicago to los angeles

the swung sledgehammer
the planted spike the planted rail

77
the flower in her hair
and no one else had a flower in their hair

78
the eclectic
and the flower in her hair

79
the daisy in the flower pot
the front door for those delivering

I exit through my garage

where my porch swing is abandoned will be made
into a bench

80
the second hand store
the estate
from the dead
absorbed

andwith cooties

o to consume an imperial stout from an artglass glass

andwere it halloween
the plague doctor's mask to be removed for
consumption

81
there are dead
to remove

were the apartment to be rerented

82
and the undead require removal were the apartment to be rerented

83
the for profit funerary service sounds promising
give them a call
honey

30
what is aporia
andwere there aporatics I am not familiar andwere it
important
howto
become moreso

31
on the measurement of aporia
what is aporia

32
senescence

the senescent
looked away at the trees rained upon
through the window

there is a sound of rain and
a smell

and the color of the sky the ambient is gray

senescent and

I do not know what senile is

33
the third vowel of five is i

were the content of the menu
satisfactory
I am hungry and

I do not share a sandwich

—

if you would like you may wear my t-shirt tomorrow morning

34
the fried pierogi
were there not a mouse in poland

lived in an human structure like
farms otherwhere

35
existentialism became
complex

thoughtful
became

another word

36
the surrounds of
air

in san diego

to smell palm trees were there a smell
and ocean

37
the surrounds of air

the tallest mountain
is a bite and
breath of cold

nor smell at all

38
is the spring thaw
lake shoreline muck

smells

rotten
like cattails bent over

39
and to interpret
the essential
and to interpret
the essentialist is

and what potential damage
and will it still taste good

—

thirty six swing top bottles
and corn sugar

carbonation a three weeks patience

—

and they go in the corner with
science

72
how
a sugar turns to alcohol

were yeast the proper yeast

the sterile environment

73
molasses
sorghum
wheat

74
a travel to a neighboring community in which
spring sprouts are noticed upon
several farmlands

75
and it is too early for the sublime

and coffee shall I
narrate

76
today's list
it being the sabbath
conceptual sabbath there are seven days in a week

and cheese is popular
and chocolate
and tobacco

68
the fish caught at camp lake
bony fish
andwith fork bony fish

tinfoil

69
and there are no fish in camp lake
camp lake is snow runoff

70
the tent
nor to be eaten by bears
were the fire to keep away the bears

and the food hanged from tree limb
nor to be eaten by raccoons

71

—

the yeast cake
the bottom of the fermentation bucket
the bottom of the bottle

—

the airlock
the presence of the airlock
were imperial stout to blow the airlock

wort upon my ceiling

—

on the containment of fermentation
how much further does it have to go is
a rational question

40
the smell of a candle

41
the smell of a rainstorm

42
the smell of a garage with door closed
the engine running

43
the smell of an autumn leaf fire

44
the smell of a book burning the smell of a dumpster fire with overprinted books
whether paper ash is preferable or a paper itself as fertilizer

and pollen has no smell but
sneeze

45
the smell of dairy

46
the burning interior of one's nasal passages from
one hundred twenty degree temperature

47
the smell of pine

conifer the conifer forest

48
the smell of a doctor office the smell of
sterilism

the smell of surgical steel instruments
sterilism

and bacteria is too small to have a smell

49

the smell of a skunk

50
the smell of a fish market

51
and cuba is too far to see from jamaica

52
and clouds have no smell except for fog

53
pungent is a smell and what will become distilled is pungent
burns
an interior of a nose like an hot desert

54
and there are no pearls in lake clams

the several under the bluegill worm gathered

used as bait
returned a blue gill

55
the dusty attic with dust stuck in the beam of light
unmoved

must

56
burning wood the campfire in the morning only a smoke

57
sensation and perception
muensterberg
describes a moving film a moving projector nineteen tens
and film has no smell but for the aspects of film

and the theater were popcorn

58
diesel is a smell

59
tera smelled of parfum at prom parfum is a smell

60

benjamin franklin took naked airbaths every morning for his smell

61
the smell of memphis compared to the smell of saint louis

there is a consistent wind
reliable
san francisco weather becomes anothers

62
the camp
the fire pit

63
the ground is hard and
there are rocks on the ground
to sweep with
one's foot

64
and it will rain
as it does

65
for light
aside a phosphourescent entymological species
andwere a stars

the coleman lantern
and kerosene

requires air pressure
requires a thumb pumps

66
the sound of a coleman lantern
and there is no other sound

and the stars make no sound

67
spaghettios were once korean war soldier issued
with meatballs
