1]

Looks like weather today

2]

the houred
porch swing

and in the winter
wind

3]

sustenance the civil

and edward abbey ate hamburger like
nature

I mention book review and

will a dam
become natural and the forest around
become natural

the city about
the dam

and the road through
beauty
which is no sustenance but

occasional
floods
biblical

I will bring my camera

4]

every spring

the bees

one flower to the next

5]

propagation

the seeded too

propagation were nature intended

propagation

the seeded too

and honey

the honey farm

nectar

I say

lick me sarah are you

fertile

yet

6]

the same lake inwhich

to swim

a predatorial fish and

there are snapping turtles

to swim among

like the ocean

the shark

the garibaldi

the surfer

and the mountain lion eats what it kills

I imagine and

the territorial grizzly nearby

camp

what is wild

and the scavengers to clean what would be cleaned in degradation like

time

next season

were there newborn

7]

spirited like a rock climber

8]

and the crumbled rock

and the secure granite is

physics

were god an instinct to say

fifteen feet from the edge

the crumbled rock is

physics

9]

and the weather
erosion

crumbles the rock

and
the type of rock

does crumble

is how

to notice lesions

10]

once a shelf of rock fell from
one thousand feet
vertical

once is one million years ago

the geological striations

and now

11]

crag

and weathered wall differently colored

exposure

rain

12]

the surface of personality

what I see

what it is I understand

and appreciate nor

mine

for I once skied were

avocation

like george will for baseball

13]

the small private library

open to the public

14]

there are professors

the first day

everyone will receive an 'a'

15]

there are professors

the end of the semester

give all students 'a's'

[their first year of professing]

16]

the small private library

open to the public

allows anyone

during open hours

17]

the private library

donated

becomes an university called

the university of virginia

18]

the private library

in one's living room

19]

the dewey decimal system

invented

that philosophy be kept

that history be kept differently

20]

the dewey decimal system nor

john dewey

for john dewey is in philosophy

21]

the pragmatist and

the municipality

the _best_ public advocacy is

reading including

bumper stickers with

municipal logos

22]

and the movement for

small birdhouses

in peoples' front yards

with unwanted books for exchange

23]

I took a book

burial practices and rituals

from a little free birdhouse in

someones' front yard

part of 'the municipal movement'

24]

it is interesting where I am walking

the grass and

there is no path and

the butterflies

25]

if you keep your [skinnerianism] within your own culture [say others are [others] treated pavlovianistically] or in other ways including in esteem including in submission including in reverence including subordinately

two physicalities are required for skinnerianism two physicalities are required for pavlovianism
pavlovianism is between two entities [nor sociological]

26]

the gold star

is a sticker

27]

the gold star

upon the rubric

visible to

the young student

28]

and I heard the wind beyond the patio

the last of the leaves

november

29]

the traffic in november is

hollow and

the setting sun

soon

30]

astronomy is

a constellation

I am not familiar

31]

the order of constellations

were culture written

with names

32]

orion's belt

nor the rest

for three simple stars

among

33]

and the red

and the white

34]

what I know no difference of

say [caught] by

the catcher and

were catching a formal job

[regrets] [to the assignment of catching]

35]

the opinion of a star

the opinion of the stars

a star has no opinion

a star is made of material

the stars have no opinion

the stars are made of material

and how shall I demythologize

[next]

and to say competition is

natural selection regardless

what is said [spencer] and

were first principles

the only

[1]

36]

brutish

37]

short [temporally related] [you]

and like the caveman

lifespan of twenty four years

38]

poor [niggardly]

were poverty of the spirit like

webster

39]

and culture

and optimism of culture

40]

and there were a gathering

place

inwhich the community

the sabbath

[on the seventh day god rested]

[after

[there were an ooze of everything into a planet

[and plants and life and animals and snakes and serpents [too

[and oceans and stuff

[and a man with penis

[gave a rib

[and a woman with lactating breasts and uterus

[and a bad apple

[started a family tree

41]

what can be learned of a story

what can be learned of folklore were folklore a story

[were time set aside]

[the sabbath]

42]

carp

the big one

large scales

sucker mouth nor

teeth

43]

carp

rise to the surface like

ducks at

the city pond and

I with day old bread loaf

44]

the park bench

and the tired

were so sounded

45]

carp

the same bread

the ducks

twenty upon the surface

lispig

chasing bread

46]

carp

the bottom feeder

sucks

microbials

from sediment

all its days

47]

carp

were [they] to taste good with

garlic

nor

48]

and the catfish

I do not know

whether [they]

have teeth

49]

carp

the goldfish

50]

carp

grows to its environment

and the coy

the backyard

51]

culp

52]

the culp

53]

culp

the responsible

54]

culp

were cause

by nickname

I have never owned a cb radio

55]

culp

and were interest

were the literati

mystery interested

[how does it end]

[were for the terminal]

[mention]

56]

culp

nor in my dictionary

'culp'

an unaffectionate nickname like

'nigger'

57]

culp

the feeder department

the insurance money united states currency receiving department

what is knowledge

58]

teleology of high school education

teleology of college education

59]

penmanship

and rights and lefts

I learned in kindergarten

60]

time telling and proper telephone answering and currency counting

I learned in mrs. gnatzig's second grade class

61]

communitas

another

were latin or no

62]

and civitas and gravitas and veritas

63]

there is a relevant concept

to encapsulate

all other concepts

64]

is a dictionary

I know of webster

of the congress websters

there is a noah there is a daniel

there is a congressman webster

65]

and the oxford

I say webster is the striation and

mention

two

one of which a symbolic form

[smiley face] [:)]

twenty six letter in the alphabet

66]

the idea of community

the idea of citizenship

the idea of social tropism [question]

the idea of truth

the slogan of truth

67]

pedaling

a bicycle

peddling

an idea

the lobbyist

68]

ritual

and when once

more

69]

a chants

mesmerisms

were after decided

newly

70]

and the kernel

for the body

for the social

the kernel were for the body

71]

ritual

and chimes the sunrise

morning

72]

and how whitman calls a city
a sabbath
a doors open at nine am
with keys
for retail and
language
and girls wear dresses

73]

the book on female orgasm
the academic study

74]

and playboy in
shrinkwrap
at the newsstand nor
longer
topless

commentary

75]

to kiss a girl
she the sharecropper
the clovers

76]

and the sunbather I once saw among

nature

her bikini top near her towel

77]

the subcontracted umbalmer

too

were an insurance provider

78]

the business thrown

79]

and the black

and the rby spectrum

color wheel

black is every color

black is the absence of color

white is every color

white is the absence of color

I presently appreciate fuschia chartreuse

I have hazel eyes

round pupils

my feline has hazel eyes

vertical pupils

[prity gracie]

[once bracketed]

80]

[the embalmer

[and the needle

[with plastic

[presentation

[should not be contested

[the bottom line

[bring your preferred clothes

81]

and the coroner were

solemn

[final]

elected

82]

the undertaker

shall I mention the death industry

the backhoe writeoff

83]

the quality cemetery

not just every cemetery has

eternity candles at little expense

will you be around in five generations and if

where will you relocate

84]

the headstone with

no deathdate

85]

the same marble

the middle of the forest

to sit upon with

no remains beneath

86]

the calligrapher

the stone etcher

the polished stone

lifted

set

after a reading

87]

and the will

who asks

88]

the corpse at the hospital

the corpse in bed near the spouse

the corpse on the living room floor found after after were it a month to ask the coroner

the happening of the corpse in a parked car

quickly

and the lovely funeral

the jello

89]

what I know of childrearing before socrates

1. that youth existed
2. that youth need be corrupted
3. that children had presocratic brains

4. that there were wooden dolls
5. that there may have been feats

90]

on feats

the greatest feat of all is what I am most interested in

91]

on archangels

three if I am not mistaken and

why are they so privileged

92]

and the handprint with ink

record

93]

and to say prefix

ana

94]

a [thing] about assimilation were

[their] becoming

[their] indoctrination

and were names kept

and were names borrowed

and were streets named

95]

and dislocation

I do not know

I speak generically

I speak without object

I speak with thirty five phonemes from

96]

and the invention of phonemic theory

that dialect

that accent

and colloquialisms are grammatic and word choice

97]

the perfected ignorance

mentioned in a biography of

mother theresa

were a listen to persistence

were a learned manner

were patience

were dogma

were presence

98]

on nature's started

and there were what no one knows

and said people and

the peopling of people

with language

said

on nature's started

said

is a question of nature

were people to say

and upon

and say having started

afore

there were births and namings and affections

and certain there were rivers

like there are

snowmelted in springtime

and sentimental and named

what is drawn from the earth

what is moved from the earth

what is picked and

put

the arrangement of nature is

a semblance of nature I
have a large conception of nature like
poetry is inclusive of philosophy say
death too is natural and
what is moved may not be replace like
what is necessary for
anthropos for anthropology for
what is required like I require

99]

the sunset and
the war to the sunset

the difference atween
paleontology
african colonialism

100]

the terminator was
[bad]
in the first movie

101]

on numerological superstition
the thirteenth
seven
one

102]

on tarot
I saw a movie

103]

on divining water

on the importance of water

[whatever brings water]

the divining rod brings water

104]

the supernatural and superstition

the unexplainable

is a scientific position requires laboratory
funding

more research there is a [thing] requires
more research

there is a question

105]

poetry and superstition

the orb

the audience of the orb

106]

and when the bookstore with the thursdays podium stops

107]

superstition and religion

sacred butchering regards

nutrition

108]

superstition and astronomy

the sunset and the wine at the sunset

109]

and it is dark and

I am not afraid of the dark and I do not just say so

and the moon

and the cloud in front of the moon

passing

110]

the fractal

the aerial view of the canyon

erosion

111]

the fractal

lettuce

and grown

112]

spinach has iron

bananas with potassium

beets and the urination of beets

salmon and fatty acids

almonds and fatty acids

113]

the causticity of uric acid

the causticity of hydrochloric acid

the fatty acid and the health of fatty acid

114]

omega

Ω

seven vowels in the greek alphabet

115]

the parthenon with colorful lights afterdark

from a window

sole

salad

like the mediterranean

115]

and the neon like

looking outside and older hotel window

what are thessalonians in the bible

were the athenians
not mentioned

116]

the magnet is from greece
said walmart

magnetic north ya know
the ozarks
[eh]

117]

the airborne variety
the waterborne variety
the bloodborne variety

the onco department

118]

consult

the onco department

on lobotomal unification

119]

and the bone doctor would be
nothing
[nothing]
without the central nervous system

]nothing[

120]

intentions

[intentions]

[intention] is

a secular concept

were there no

axiology

121]

and statistics

and the foundations of statistics

122]

and qualitation

123]

nor one to meditate

[on occasion]

twenty minutes on occasion nor consider

prayer is meditation

124]

flat to flat

the loading dock

bicycle hop

the bent spindle

the bent flat bars

125]

and the nowhere curb

an hop and

down forty five degrees of grass land

angled

flat to flat

126]

and how I brag

I have never jumped from a ski lift

127]

someone named shane climbed a tall ski vertical pole when

there was no snow

seventy five feet into the air and

climbed from the vertical pole onto the ski chair

watched a good view [sunset chair near hart prairie lodge]

I have seen in winter

128]

I was told by a snowboarder that the snowboarder next to him did a flip from the casino catwalk
we were on chair one

129]

I have been astounded several times

130]

I once received an half gallon of mediterranean olive oil from a catholic food pantry

131]

the color of the smoke from my flint and steel lit additive free tobacco is grayish

132]

I once volunteered at a food pantry recommended by george mccullough as a matter of six hours
of community service for my star rank in boy scouting

as a food pantry volunteer we were allowed to help ourselves to food at the end of our shift

there was corn there was meatloaf there were mashed potatoes there were picnic tables to sit at in
the dining area of the building there was lemonade in pitchers there were sterno canisters alit

133]

girl scout cookies sold by brownies every march are my favorite I really look forward to girl scout
cookies particularly thin mints

to freeze

four dolluhs per box

134]

I never found gold in the superstition mountains

there are scorpions under rocks in the superstition mountains

thems fighting scorpions under rocks in the superstition mountains

135]

and where there is no water there will be
a flash flood

136]

to watch
the flash flood
cascade from
cliff walls

137]

to participate
a flash flood
above the spindle of a bicycle

138]

a desert flower
yellow and near
green valley

139]

the green desert

an instant and

brown again

140]

and the vulture

the scavenger

[hours]

nor reason to descend

141]

the thermal

were

the thermal

were

nor reason to descend

142]

the rock face

sandstone

unclimbable

143]

the trilobite and the dinosaur tracks near
tuba city

there used to be a checkpoint on one side of the road
there used to be a vegetable checkpoint on one side of the road

144]

and the sound of a suspension bridge cable
struck with
a large stick

145]

green chile
stew

the civilian conservation corps is

six hours from what closes in winter

146]

from glen canyon dam
painted with a crack by edward abbey

four hour float to the put in where

the seventeen day float

al gore

were edward abbey found a wife

149]

the army chaplain
mass had ended we had not yet gone in peace
ten pushups near the altar
the monsignor announced he was going to boot camp

150]

the blessing of the rosary

151]

the church hopper
the church politician

152]

and the round church
contemporary
blue translucent glass all about the ceiling nor
other light

153]

I purchased three votive candles from
west germany

154]

the nineteen eighties
dayglow

ronald reagan's shooting

I was a paperboy in nineteen eighty one

155]

on the viscosity of ouzo
sambuca is for
ice cream like
creme de menthe is for
ice cream

156]

poetics and
religion

acts

what is religion

157]

the speculative
the comforting
the sustainable
the ritual

158]

poetics
and the introduction of poetics

159]

and politics too
aristotle

160]

the translated poem nor
the original

[the translator
[the motivation of the translator

161]

presentation is
a room of people

and the volume of the poet

[wearing]

162]

the poem of another

163]

and astronomy
when the social is exhausted

164]

the telescope
the lensmaker the lensgrinder

the child of the lensgrinder

165]

and the expedition of the astronomer
carrying canoe and
arrows and
tent
nor civilization ten days were

[self exile]
[self banishment]

166]

and the bugs
a mosquitoes collecting
deoxyribonucleic acid

169]

the entomologist and the taxonomy of the entomologist

four appendages
mammalian hair
omnivoric

170]

the dark movie the dark film
won an academy award

171]

the nude at the museum
bronze
life size

one of six

172]

the airbrusher at the mall
the glassblower at the mall
the street wax painter

nor the gum selling child without creative interest

173]

the chocolate and
almonds

174]

thanksgiving
the national holiday
elk roast

an elk in the wild

and carrots
and potatoes
and celery
and onions

and salt

slow cooked

175]

the flown bird

176]

in the winter
the migration

snow

and a barren trees

177]

preliterate history and
the demonstrative teepee at
the tavern

a symbolic forms of the preliterate

the exterior

to admire with
ale
from the patio

178]

the material of ink
the application of the material of ink

[that others]

179]

were the corporate anthem
were the barter anthem
[the big house]

[filled] [with]

[prosperity]

180]

the meat

left for the dog

181]

the meat

left for the dog

was to be thrown away

182]

and the poison of time

I had not realized poison

183]

the centered and

the invention of religion

184]

were a senile nor

elder

185]

the books lined the shelf and

and advocates of
[books]

and the dewey decimal system is numeric excepting
fiction

john dewey is numerically catalogued and
unrelated

and when there is no space
and to dig a greater hole

I once was told
'everyone should write a book in their lifetime'

186]

the long arm stapler
the two sided laser printer

and no match for the calligrapher's effort
leatherbound

187]

and the voodoo
and another name for voodoo

I do not know

188]

the church and the building of the church
were a kept rain
I appreciate I have never owned an umbrella

189]

the downtown with
natural water
the old building wrought iron fence

190]

the orange dinosaur
the vegetarian dinosaur with
two brains
twelve stories tall
one brain the size of a chicken's entire central nervous system
too large to be hunted
seaweed
is or is not tasty could be said
a single dietary nutrition of any
species
tastes nutritive
and gray skin rumped like an elephant
lays eggs
said the movie were
amber with mosquitoes
the mesozoic
a swamp a man sinks to their knees and
with boat
humidities about listening to
the occasional alligator
glurp aneath a watery surface
nor sound again until
the bird
calls
like ponder I am no empath nor
birdcall interpreter say

a sounds of an environment are
expected having planned for sounds
the dinosaur trumpets
can be said by the studies of a paleontologist and
another
were there no other there were
no call

the mountain has no dinosaurs and
a mountain flattens to sediment and
the eight fall tallness of a carnivore eats
the two foot tallness of a rodent carnivore egg layer

and the fish dinosaurs with
gills
could be eaten on fish friday
qualifiably and
one trilobite is nor another trilobite and
the horseshoe crab
of today
may or may not taste good and
has not changed and cannot change
in twenty million years
[since the mesozoic anyway]

the pterodactyl nor
the efficient flyer

extinction is nutritive
extinction is habitative
extinction is the weather
extinction is a volcano
extinction is conceptual

extinction is mud

extinction is excessive rain

extinction is one giant tar pit

extinction is conceptual

extinction is a paleontologist saying so

extinction is a memory

extinction is the way it was

extinction is having taught a [thing] and standard is standard [now] [thus] [upon]

extinction is fashion

extinction is last year having recognized this year

extinction is the last of a biological lineage

extinction is the dodo bird

extinction is a carrier pigeon

having assumed the concept of extinction were one to assume the invention of species [question]

assumes a variant future conditions

extinction is the illustration of extinction

extinction is the cause of extinction

extinction is a dinosaur

extinction is an edsel

extinction is the introduction of an invasive species

extinction is an invaded habitat

extinction is when a species is no longer noticed in the wild

extinction is the taxonomy of taxonomy

and the dinosaur ate seaweed

the mesozoic era is two hundred fifty two million years ago to sixty six million years ago

bellowed

mated

ate seaweed

[paleozoic mesozoic cenozoic]

191]

ontogenics and a read book

slept

next to the pillow

lights on

192]

the sundown

foreplay is

the sundown

193]

the aphrodisiac

were dinner

the red pepper flakes

I insisted

[somewhat]

194]

cayenne powder is good for the circulatory system
once in ice cream

195]

the herbal tea book
dandelion
I am told is
fermentable

196]

and honey wine
the naturopath

197]

the desert
and to live in the desert

198]

I know what a desert is

I know what the desert of the soul is

I know what a desert is

with yellow flowers on the cacti when

the first rain

199]

and the snakes lay out because
it is not too hot
yet

200]

and the hare and the javelina because
the children's book said so

and the jackalope because
folklore
and the tavern with a skull

201]

the dunes are one hour drive
night
from the top

202]

and the park ranger lived
in the desert
before becoming famous
the writer
lived in the desert

203]

the writer
of the other writer who went to france

204]

how to sell books

- 1] have a book to sell
- 2] speak good of the book
- 3] speak of references
- 4] realize an over assertive selling tactic may annoy the bookbuyer were the bookbuyer already convinced of purchasing the book
- 5] present oneself as a reader

a reader is

- a] absorbed
- b] has an appearance as one who reads
- c] speaks in the language of their literary preference
- d] may or may not carry a backpack
- e] has a library card

205]

on the invention of dinosaurs

a question of evolutionary theory [nor]

and a bones

brought from sedimentary stone to

a steel gurney

adhesively cemented reparatorily catalogued set in a climate controlled warehouse for occasional gallery display of three months per time

206]

and the theory of the dinosaur

and the teleology of theories

207]

the capitol with

the senator

people in ties

208]

the quiet capitol with
decisions

209]

the capitol with
grass about the exterior

210]

the capitol with
the sounding floors
the floors sound as footsteps

211]

the records of the capitol
across the street

212]

the tourists in the capitol
the volunteer selling
postcards

213]

the old door of the senator
seven per wing
with glass panes
with painted names
with painted titles

214]

the secretary inside
the senator's office with
answers

215]

the senator walks by

the scope of state governance is
the state

216]

I would like to see the state archives archival building
shelves regarding
curiosity

217]

what land is once divided

218]

I once pedaled to another county

219]

the body of water separates new york
michigan

220]

and the saint lawrence seaway to

duluth

221]

iowa is toward the sunset from michigan

sunrise seven am this time of year

222]

thanksgiving and
elk this year and
mead

I should make cornbread

223]

on the miniaturization of the world across the street

the county park

the world is twenty five thousand miles circumference around the equator

two pi r

pi r squared

the radius of the earth [about]

and that the world is flat because

the horizon

I explain the sunrise as

the sun orbiting the earth or the earth orbiting the sun

and to say the moon is

menstrual

224]

the grass slows

and the leaves are gone

225]

and for dinner

and there were the turn of turnalism

sunrise is

icelandik yogurt

with honey

something bread

226]

the imported fruit

I once saw an orange tree

rows of orange trees say

orchard

like the filbert orchard I once slept in

227]

I once saw an apple tree so many apples they were on the ground required

a rake

228]

pears from the same soil as apples
different tree

229]

nor a carrot orchard exists
nor a potato orchard exists
nor a lettuce orchard exists
nor a legume orchard exists

I once saw a sunflower orchard
called crop

the heads rotate with the summer sun
eight feet tall

twelve inch circular heads
brown
and yellow petals

like little league uniforms

and september
the field is silent like dead season is silent

the turned soil
for the spring

nor a tomato orchard exists
with little yellow flowers from which
the tomato comes
three feet off the ground

all the branches

nor like a vineyard
a bunch of grapes
for table wine

the bottle says
red wine
the bottle says
table wine

I know cabernet sauvignon I know chardonnay

the bottle says red wine

[that is all]
[from red grapes]
[the ferment of red grapes a particular yeast]

and the white

and the breakfast bowl of granola grapes yogurt

and some for raisinettes chocolate covered raisins the same raisins for wine
once grapes
dried

and plums are dried
and sweet

I have an affinity for plums

and that which is dehydrated is good for portability

230]

a film

the parts of apocalypse now

the divisions

the chapters of a book

the cantotic poet

the sonnetic poet

and a mention afore a poem

the divisions

and divided into three equal parts equaling

three hundred

eight and one half by eleven inch pages ofwhich

four poems per page

231]

an open letter to those with buck teeth

just because you have buck teeth does not mean I am enamored to you

232]

john dewey lectured at harvard in nineteen thirty one

israel scheffler was born in nineteen twenty three and taught forty years in the philosophy department at harvard university

233]

send in your ballot

first measurable snowfall november twenty two

I once skied on thanksgiving day at a ski resort with natural snow on the ground

the pagan

the soil

the canopy were spring

252]

and the meadow

she wore white

barefoot

253]

other places with

same names

and geography the river nor

254]

the philosophy department

the found philosophy

published

were copyrighted [question]

255]

and the book of stories
and the book of logic were way

256]

what of the philosophy of philosophy
what of competitive philosophy

what of natural selection and to explain

257]

the conceptual marriage and
[they] are still different

258]

where one goes to die
accepts insurance

259]

where one goes to die
is decided

260]

where one goes to die

were there an act of dying
were one knowing of their own death

261]

the pagan and death

and those grown with hardened cemeteries they have always driven by with
limbo areas

262]

and the river is grand
the river has always been grand

a traveler mentioned a river in india
a body bumped against his canoe

and there were freshwater dolphins

263]

the experience of a movie in theater
the giant screen
the size of a football field
silverscreen
and stadium seating and audio stereo as
importantly loud and louder

to sit in the front row with raisonnettes and
the architect having planned for the front row as the best row for viewing

and the theater introduces the movie
in person

and my raisonnettes are completed before
the movie starts

264]

the podium of the poet
the podium of the professor
the podium of the cantor
the pulpit

265]

and were toni morrison the poet
hers were a podium for five thousand audients

said the president should be a poet

nor she read poems

hers were questions asked by the audience
two hours
she answered

raised hands
people standing to present curiosity

266]

eric johnson stratovarius
donna jean godcheaux steinway
blues traveler large fellow saxophone
hohner key of c
marine band key of c

got the seventeen year old's attention with eunoia
she was on the couch and
I reading poetry
after
she kept the book
a while
concerted
she was a painter

343]

eunoia eu noia para noia
noia state of being eu

eu prefix

noetics eunoet and bakhtin

metanoia nor mononoia mesonoia and

to sit indian style

making a circle with one's index fingers and thumbs at elbow height eyes softly closed pondering

[what is eunoia]

344]

an anthropology an anthropogenics of ontogenics may or may not resemble ontology

ontonoia

the study of being being

345]

and a variant thoughts in relation to metanoia

[how did [you] get here]

are these honey roasted almonds or peanuts [question]

the container is facing the opposite direction

they sure are delicious

346]

the afternoon sun recedes

four pm

it is winter near december and

the shortest day of the year

347]

winter

outdoor municipal ice skating rink

snow

I once walked on a frozen lake one mile

the new year

348]

I knew someone that knew someone once and

he accepted a position elsewhere

and so I decided to know someone else who knew someone

in the interest of

random smalltalk any chance I needed to mention

[something]

[to break a quietude]

in the interest

of people without mentioning names of

who knew who

[is that not interesting] [question]

[would you like a refill on your coffee] [question]

349]

the neighbor

350]

societal expectations of neighbors

a} that loudness be atween the hours of eight am and ten pm sunday through thursday

b}

351}

the neighbor left a grocery bag of gardened tomatoes on the stoop
 ugly tomatoes like garden tomatoes are nor
 heirloom tomatoes just
 ugly and tasted
 good

352]

the welcome wagon rang the doorbell
 I had heard they give free fruit baskets
 she was nice

353]

when there were no electricity
 people lived poor brutish existences

and then

there was a social contract
 no no after original sin
 original position
 tabula rasa in sociological terms

there was a social contract

an actualization of the social contract

anyway there was a guttenberg printing press in the sixteen hundreds and
 everything was
 libraried

dewey decimaled eventual

sunken twenty seven stories below ground in
a vault
at
the harvard museum of ethnology

including photo archives with
particular writing instruments to write
archive numbers on the photographs
in relation to a brief description to be

dewey decimaled

and tree cores at another location
and seed vault at another location
and ice samples at another location

hundred thousand year old ice samples capture the atmosphere at the time

striations
of winter
striations of geology
sediment
and oceans pass they dry
a river where there once was an ocean
striations of sediment revealed
erosion
and the paleontological specimen

and the interpretation of a paleontological specimen is

the ontological specimen is
experience
until they are dead

and the interpretation of death is

and ritual death practice by the living

and other anthropological thoughts

baby naming

union

[and social value is associated with physics theories]

social intercourse is a concept by john dewey

john dewey commonly used the punctuative notation ; -
