she took the war  
away from me  
and did something with it

nor empty is feeling  
the clouds are taken  
volunteering

to what struggle is  
when each set wishes  
to be known as peace

if land were  
what is true only  
do I not consider?

airplane for 100 years  
faster I travel  
then people come

as if margin were insult  
then another city  
how to live

arranging history  
they put pictures in order  
who does not?

the anywhere bus  
window pictures

technology comes in bridges  
and other things  
that can be replaced

fasting for responsibility  
not to be taken

introduced to another religion  
they watched me  
watch

not knowing where to begin  
this language  
protected

bottle  
empty  
flower

schedule  
nor hunger comes on time  
this is conversation

monastery  
quiet people live high  
to think of

what is christianity when  
myth

common olives  
cheese is given with  
coffee

phtoo  
things are away nor  
directed

what changes hands when  
union  
is settled

is art only old

treasures treasures  
I put aside land and  
call it different

what remains where  
I call home  
what remains I bring

nothing left for  
striking writers  
to write about  
the world is depressed in  
harmony

absolute kindness  
smokes  
half cigarettes

the faculties  
represent themselves

edible varieties of people  
I am not thorned  
nor do I grow quickly

the sea  
it swallows the sun  
the sea

what really  
to do with poetry  
nor is it resisted

and is it love  
its thought is  
nor can all of mortal time be  
spent  
it can

nor anytime spent  
I only know  
what speculates

character  
for which company  
I keep

and if to be alone  
for want of  
one character  
have I traveled?

as if war  
were the onset of history  
as if difference  
were the onset of question

the remarkability of  
forgetting  
what is reference  
do I live?

and pulls from  
once values  
what foundations I ask?

healthy leechvine grows  
through deadtree

no bugs for memory  
nor am I offended at  
inquiry

what offense I bring at  
not spending  
apologies for  
what is creative

can love be thought of  
critically  
and still be called that?

then poems were old and  
I started going  
outdoors again 11 am

if peace were queen and king  
then having conceded  
lest we

age is only as  
itself  
known

how does it work?

what finds me?  
do I take responsibility?

to compare cultures  
apologies for  
having been from  
only one

what does the other  
what does the same  
I am only different  
as.

the rules of contest  
to win within  
that

what word is deliberate  
I question  
nor freely exposed  
to ask

put a flower in a bottle  
having drank its contents  
in good company

never to use the word  
research  
on vacation  
never to use the word  
research

the abilities of foreign lands  
what is introduced  
I stay

change is an American word  
like  
British museum

too clouded for the moon  
faith it  
is  
the stars

nor are these intentions  
heavy  
withdrawn

two saints  
areas divided  
nor is area

boat dolphins four  
have been  
following waves watched  
to be

as with social newness  
new thoughts  
what is social travel  
the hills still are

she goes away in  
the mind  
I do for

what is allowance  
what is possession  
what are limits

dark hills first  
them shaded  
the next lifted to white

pistachio sun down potatoes  
red wine

symbols and religions  
as if  
they were the same  
I have not decided

modern icon  
what shape is Madonna  
underwear

will a philosophy allow  
another philosophy within  
what is social consumption  
what is love

nine hours  
because the most rational way  
to divide the world is  
time

another coffee  
then she can go

old lady sign language  
hand to chest  
thank you

man as seed  
do I fear man as thinking  
endangered

oranges from trees  
without seeds  
how they start

she writes in bed  
without  
instruments

trains they go as  
foreign words  
go

night Acropolis  
rebuilding  
what time does claim

the methods of symbols  
is a museum  
contrary?

erasing freedom from vocabulary  
for its ness allows its  
opposite  
but to address

city of a  
thousand islands  
how we come together

come again church  
for appease  
the world outside or  
to be faithful

the sole it is tried  
the soul it is tried  
fillet the soul  
and baklava

remember she circles  
the wind  
does circle

olive for the heart  
orchards orchards for  
the heart

will you have an olive  
with me

the mind is no place  
for love  
but to think about  
nor is this

what of the Gods when  
God came  
then we made many priests

and icons for to live  
good has died  
memory

what of  
an artist never having created  
a thing to hold

pigeons city birds  
what did they do first

how long to erase  
etched stone  
the wind  
the rain

what thing did Greek philosophy  
challenge -  
only its method  
then its ness absorbed across

if a child for family  
having been

seminary of the devoted  
what is value

collects octopus undersea things  
leaves their remains in a box  
I eat

did not give faith to  
that guy  
said he was called  
and if doubt is absolute

official doctor  
went to medical school and all  
ask questions

official doctor  
went to philosophy school and all  
does not ask questions

grows old nor  
to have given up on love  
did not consider

Athens crescent moon  
science is retreat

arguments over wine  
nothing is bad we  
resolve

the strategy of building history  
let them touch  
it

the intercourse of deviation  
what game is  
chest?

how does  
sexuality  
start this interest?

nice things  
then give them away  
for remembrance  
baseline

what is modern art among  
2600 years

is not craft nifty  
and who  
eats tomatoes from that

lets the barons read their poetry  
keeps to his  
own

embarrassed at  
the size of possession  
grows old thinking

made a safe place for  
poetry  
what is an administrator

what a revolution  
revolutionary idea  
wine daily

holding out withholding  
what is  
unconditional

what culture  
forces itself
