ELEPHANT LOVE POEM

Bad is something I shall assume bad if given bad and
I will wake the night into day
return light to closets and play music at volumes conditioning volumes
until
to sleep to sleep without conditions

For bad were not forgotten
I too structure programs for badness badness is entry is not badness entry
am I not born bad like
original sin and
were I convinced

I cannot deny the universal mind were present
[I love]

To God
you wear white ivory white

And love were no fault

Bad is to return to bad to structure bad the givenness of bad
it
an inheritance for service like
reason and why churches places are put for conscience

And were bad for turning agents for holding agents for nobodys' care

I am not against and deciphering I am
not worried for control
and she is different you are

Remembering memory its call
is not a flower until yesterday

[And that is only sentiment]

[Just]

And I do not call love by name for their forgetfulness

I do not give away trains but walk slowly in
directions
or either sit
draw inward and replace myself with you

TELL ME MORE

Were it so fertile a thought

I too love such things I usually do not mention

Except to be heard

[I will stay

[awake

[until I believe a sounds are otherwise for God

BARRICADES AND TESTIMONY

Nor the bottom far and spread
truth be eloquently near like wine

There were lamb and candles

Seduction
and air patience the
game of knowledge

Nor evidence in a beginning to start a barricade
like question
such is law nor passion and only
[that] type of truth be ridden in a manner until it be
exhausted
dismally exhausted

No meeting is by chance but love when they
bumped
and genuinely interest when a thoughts lead to experience and what is
powerful and important

There are days and several perpetuities to resolve a company
call love
before one is delicately
brushed for barricades and professionalism

I say I am no testimony

nor a picnic finding its seduction into passwords and congress
the cold chicken
the grapes the attorney grapes and
sleep is reference to what is otherwise explosive

[Fear such things]

[Fear such things]

But I do come for love over and again

And barricade is mentioned for it be done and put it away
and were testimony a sound
respond poetry is for many purposes and I will invent
that which puts away the
concerns of counting

THE RIDDEN

Overland cushioning wheels and bumps fuck
the storms

Inna tuition

the water stops near enough to full to suppose
wait
daybreak and sounds
eggs and firesmoke approach purpose
again formidably again purpose

Roll on

nor freedom but it were exercise
of the will
the shut out of sweat and decadence fuck fuck fuck were educated smartly
were never language
really

Nor wait for dust its settle I am

beyond and replacing

And the arts were only interest

When I am done and there the arts were only interest like

evidence

Fuck fuck fuck were educated well educated enough

[to say Guggenheim Fuck Guggenheim but once]

GREEN LEAF

Were green enough and passing down to earth
to earth

Were whole enough
were whole enough I require no tree no tree I require

Rested were to grace and
early spring the largest green about and still

It comes down to
side
I love

Green leaf when it were down
I am too
wishing it were not quite so early and it
is
early

The others
are
still
upon trees when this will dry away before the others
finish

Were whole enough were whole enough assume for
I

THE BORROWING TEA

The grass for its spot it were near to where I swim

and a blade

inna warm drink with the grounds were place

absorb

The earth the warm earth the drunken earth

the leaf the poisonous leaf I drink it I drink the weather

I drink what is pushed from the poisonous leaf without drinking the leaf

the earth the drunken earth

Too stir and with a stick a green stick twice

Like snow for water

like river for water

And put a stone into for imagination

with the really grounds the Irish really grounds and the English really grounds

malt and

dandelion

dandelion tea

The petals were made

I drink the petals I drink what is pushed from the petals

I drink what were around the grass and lent to the water

I drink the water

HOMEWORK

The studied leaves

bent over a book when the candle

the forgotten candle amid the

gloss of learning

Love were once

put

into poems

History is a candle like philosophy is a candle

RIVER STREAMS INVENTION

Of all the rivers I
imagine holding to anchors to character to what does
stay
a remembered course

The heartness resolves into
its invention

Little places nor size nor any size

The river
bank

Put money like thoughts into the river
bank

Make me invisible and nothing

Because what does flow into spaces otherwise
without

Divine I cannot say
language but when it passes like a river passes without

Movement

The BLACK AND WHITE NUDE

I am not prepared
to put you into words

Breast
the arm were raised to back a
perfectly scattered hair

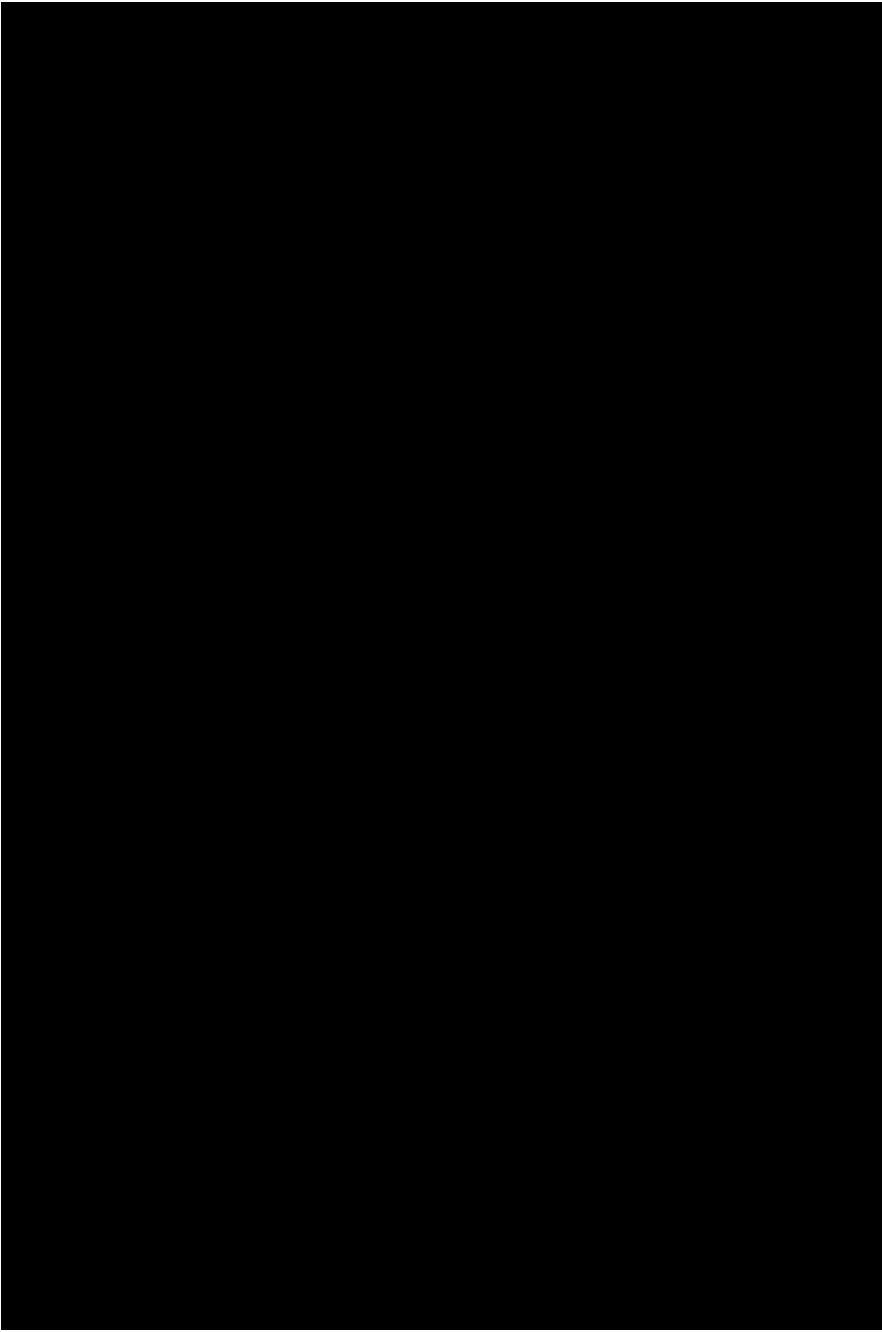

There is lipstick
bracelet and the sounds I imagine

Sex and whether an image stops
below a navel

but your stomach were delicately out and softness
like to a back for arched enough
and where a butt will meet an upper frame
a V for trying back

And to be covered in thought I
am want
to run a hand up a middle and between
where to later kiss
and to hold it there upon my knees

I am not prepared
to put you into words
I love like silence

THE MOVING CLONES

Business to be done

business to be done business to be done business to be done business to be done
business to be done business to be done business to be done business to be done
business to be done business to be done business to be done business to be done

Theory

upon whether four likely originated animals

bodies

introduced differently to different spaces were developing differently

And when an animal is no longer an animal

and to say

a man were separated from his animal his animal was made again and again
without him

A man were separated from his animal his animal was made again and again
without him

Were a man his father

Theory that a body the material of a body the limits of a body

theory that a body retains itself until a frames will not hold age

and were a child the restart

The moving clones the moving clones are a

species

the moving clones

are humbled unto lesser Gods lesser forces
respond to lesser Gods among chains perhaps not even
divine Gods

And that I cannot qualify except for trying

Were a woman her
mother

Rivers

LOVE POEMS FOR WITCHES

How do I love thee O witch
I love thee in my sleep when I am drawn
figured and poisoned and promised with death until dawn I love and
will not speed
I will bare the sacrilege of coffee shots in Celtic tea with
found leaves
O found leaves blown in windows with
tears curious tears

Because

It is an old old saying like tolerance and
what is worth fighting
fighting and
pulling at nature pulling at nature that it remake itself
damnit

But that were time

And ask why to love I say
it is innocently fifteen as was I nor
provident

Yet

Because you

And I mention with no voice for languages but friends

I do pick grass I use scissors I learned to use scissors I

lay paper I call paper upon trees and suns and

stars and

moons and

the fuck else

the fuck else

call paper upon

I use scissors I have learned to use scissors and rest them and

open flames

open flames

put them in protected places near music

Just gentle caution for properties properties prove them

nothing

properties

prove them nothing

I watch

your clothing

I promise hair and pots and hearts boiling hearts

livers

And when I sleep I do not

suspect

I am not awake excepting sex

And when I sleep I do not

suspect

the hard rain the blades of otherness otherness when the night

when I sleep and when the day when I

sleep

Love poems for witches are

what color

Love poems for witches are

what fruit

Nor I promise to eat yellow nor blue nor red nor I promise

[I eat blue and red and I am not afraid to eat yellow]

to eat apples like medication meditation medication

to drive in types of

ships over other types of ships

nor I promise

nor I promise for being the opposite of promise

Wind

And acquainted with water

wind

The clouds the

clouds

Until

I am invisible and do not remember myself again

the clouds

for my forgotten spheres they

Shall

Be called like love is called and the referential order

for explaining

whyfor tea and consequence

I say you are nothing but convinced

I say you are nothing but convinced

I will hold your hand in a museum where there are trees and

sundowns

Tides and oceans and bundled bundled creatures finding

divinities and candles

FATHER PLASMA AND THE DAIRY QUEEN

Been out late at night collecting intentions

keep the stars turning

making

sure at least a

keeper

is watch the dark hours sentry sentry for what would otherwise begin

Queen

Admittance

The dairy queen is as humble as pie cooling pie inna breeze

way

What aengines will not turn

Materialize

The conditions for the elopement of souls

is

a factor of exclusion opposing

a wandering uncertainties call otherhood

Math were that and so delicately conditioned

[we shall enter forward aye]

What the hell are they doing and making and calling

Good

[But I am conditioned when it were spoken too loudly
to take love inna gentle course of handship]

Satisfaction is a horse but not a cow unless it were a fine and giving
cow

Father plasma knows such things and calls them lovely and other words
stays up late making the night quiet and safe and
eating important magical fruits

Has things going on
has things going on

I pull my eyes to quiet and ask were love nearly profound

One queen is not another queen and what grace supposes you blessed
ultimately and forever

Keep

Asking questions keep asking questions for all of the night for all of the night

FATHER PLASMA AND THE OVERDUE LIBRARY BOOK

Were it rested

the counter

accounting the counter

The book

The library book

Lent

On good faith lent

There are no library police no digital police

Ask if a Chief

Executive Officer

is

Required like ordination is required to follow

the adjustments of institutional protocol

It were a question of a nation a question for a

patron

Advocate

Nor who can stop excepting a library grows

small except for shelving

THE DISCIPLINE OF WRITING

Written everywhere the [things] are written everywhere everything is known
written

I say I am not God I am humble and I am not God I am material and flesh
the exposure to [this] is by my eyes and ears and sense

I interpret

assume there will be a knowledges I am never introduced to
for absence of experience

Were faith to agree its existence

Were discipline to agree

that upon a peace of witness for to say

this knowledge will not be similarly introduced to others excepting upon
my responsibility

Were discipline to agree [civilization]

exterior

And I am selfish

I claim I write do I not write

I claim

that which is passed and overseen and irrelevant and glorious

herald gloria

Hold like trophies and give to [that] infinity when it listens

love

I take points to manage what is given

I choose like discern

the trees and smells the proper Autumn

I work in ideals

I work in natural states and

to listen

to listen and

make spells upon that for otherwise I am animal nor less

important but animal and waiting

waiting

waiting

I cannot regard such pause as wrong

wrong

nor am I

The discipline of writing and

to think is not to write

and I do not exercise this body

I do not think of exercising this body

this body is fingers and I do not remember fingers

I am early and at a water's edge and inna water and drinking lakes

I record lakes

I write of rivers and lakes and water I make time for record

BANE

Pushing out tramps and corners
stops to intuition

The bane the bane

I was so damn insightful and gross and
minded for my own love and to be happy and framed

To be happy and framed I
know of no wars nor discontent

She wore stockings and sex and talked of
flowers and the size of things the
proper colors

Pulled me from
books because I am too far into books

It is the right thing to do

[There is time enough for death]
[after]

Calling up

Bane brings poems after she has left
leaves them at the

window

leaves them at the

bathroom sink

and under the bathroom sink with an old and yellowed note

THE CHORUS THE CONVENT

A tail light were the memory I
will replace it with a star I
will make the sign of the cross

Deep cool clear when it is hot summer hot I
go to bottoms
rest until my breath is done and
saying prayers

At night
the clock and the airpulse the
ears open to everything invented and everything forgiven everything
eaten

Inna morning before the flowers are put
the
cooks
are making sounds in the other room

The dreams of history like it were not solid it were not
solid
and know it were for nature is such a
keep

Saving were ministry for only some with so great a faith for
rooms only
it were cinnamon bread [that] communion

THEY ARE EACH OTHER BUT NOT THEMSELVES

Imagery the body

were given and

character the self aparted from [that] substance

Two were accused of each other

They exchanged the penis for the vagina

[there was a contract]

And the hair

The lips for the lips

Eventually so too the wardrobe they must

Divisions divisions and real estate the

hardness of flesh and

cooperative

The new tenant

Loves

The old tenant the one with the claimed nice ass

Were newness and disgusting to conservatives

what is familiar

DIRTY BLOOD EXHAUSTED BLOOD

Weary weary the blood for sleepless push the hollow throat the
fungus of exhaustion
darkness and interior

Dirty blood exhausted blood
the orbiting blood is dirty and exhausted
there is no rest for dirty blood
bloodletting is no replacement nor
their blood be sensitive nor fear
vampire
vampire does not exist

I sleep nor help
but sleep
let away poems for baser breath covering love and
importance
covering
[that]

[Away]

FASTENED TO A PULL

The line went through the belly
pulled interest until there were little lines of blood like
insistence poems
commissioned poems

Love is as directional as God sustainable God
when the buildings
crowd

Twenty numbers

Twenty different numbers

Thirty different numbers zero is not a number

The line is not attached to gravity
the line went through the belly and lifted

The body is not attached to gravity nor the soul
fastened to a pull
a blue pull I think it was blue
[today]
until I am reinforced of what color I am today

[The weather changes]

THE HEART

Was really an organ required

per doctor

per doctor

and having given his to love named Mary until she

went

said to Buttercup

here take this spleen or brain if you prefer

THOUGHT IS NO BURDEN

Sunken and lapsed in love her
to intentions

Thought is no burden
and if I be so handicapped to
not here her return

I am wonder at their powers like how it is known
intuition how
one is deeply stolen nor ever returned even when it is said they are returned

The little monastic home
skin for walls and
fresh water and grown supplies

Outside

Thought is no burden
I make habit of thought

Thought is no burden
I make habit of thought and
return resolved to what is important in love her
to intentions

One is deeply stolen deeply stolen and never returned but for
love and day

BLOOD LETTUCE

1.

Too little too late

the blood lettuce the veins it was

the only head

the water lettuce the blood lettuce

fear

Ee coli starts with a c go blind

2.

Dare

like grade eight for leafs in the mouth wild leaves blood leaves

3.

If it were divine lettuce

ask if to eat like danger eats risk

For food from the ground

without question

ask

were sickness impossibly divine oh

to die in any case ever

4.

And say I will never try [such] once more

until you ask me

too

SUPERSTITION

Superstitious the numbers planted like forms

She were an anchor
made privileges of her numbers like I am in love and
know

I cannot escape that
there is no solution to that
number
but being captured

Allowance

Convinced the clock the stocks the movements of creatures were
formation and
the words the words
[words are but easy to make into what one wishes]
[try rainbows I say try rainbows]

How a church does try
when the fascinations of divinities settle themselves somewhat
somewhat
settle themselves into hours and
physical structure because the wives were exhausted damn exhausted and
so was I

Went home and ate potato salad

LIGHTS WITH A KICK

Cast the sun the road the road it is there

Lights with a kick

The convent calls ride buy the convent inna line
and not far from rivers having given name to rivers [Big Generous]

The position
upright and founded entertained for its lean
it is old damn old
they do not come about the same
they do not come about in similar freedoms
their freedoms are isolated and personal and complete themselves and go
no further

The map on the ground is a shadow and
later into the day when all things are good
realize
there are elements which travel in opposite directions than I
do
invisible and important things

The ground vibrated one of the tail turn signals loose at the
convent

She was ready too
[go with me]

Election day

Election day is

no objectivity

In Wisconsin there is a booth and a paper with a list and a black pen

Complete the arrow for the candidate you wish to vote for

Complete the arrow for the issue position which is important

Democracy is threatened democracy is novelty until democracy proves itself

other than novelty democracy is a camera democracy is a newspaper

democracy is a voice democracy is freedom

Poem is an expression of democracy

Democracy really is nothing until the expressions of democracy are challenged

Health care

ask if it were an entitlement like quality food like affordable housing

Theory indicates

nor should I mention

a position is not a democracy for structure separates itself from

that which is important

health care affordable housing education food

Election day is after a qualified formation

they have rested their forms and now say what is

best

WONDERING IF I CANNOT HEAR

Were God an opinion like

faith and

were there the unmoved

listening

I will not stop language

And to ask if

I will hear as

for I have not

1.

Nor having required

An introductions are a dime to a centered feminine earth where
a cross is with four crescent
moons
in interior corners

Because

I mention hope and not with casual favor but
the love of a child of fifteen
is
better nested into
truth
than I can imagine for being lost in twenty years in twenty years
rouged and faithful nor out of love
but
inna line sequestered into its own securities
[orbits]

It has been five years since a cause and
reason

I am an excuse

I take greater privileges for excusing the tempers of

errant divinities and
claiming places for stillness and contemplative boxes

2.

America you are listing
you are trying among little businesses and little beautiful universals
America you are listing

Today it rains

The world is small
too small for electronica because it was said to cause
peace

I do not think alike

And when it is said I think differently I think alike

Today it rains
like sex it rains

Today it rains
pushes sugar into rivers

America you are listing and you will be given no new name

I will only go to work

3.

The candidacy for alpha

kiss

say it were no democracy

Leviathan is a monitored justice distributive justice

A pet

good pet grooms itself

learns everything

It is not enough to go to church one must bear crosses one must

Intuitive crosses

crosses as lonely as when they are held greatly into skies

the same hands

that

Every hand is invisible

the blind eyes

the blind eyes

I am not convinced the nun will not brag will not pride

I am watched going into purple lit rooms

there is a porcelain queen there

still

with a golden crown put for consideration I

learn to love delicately and importantly

I do not know what to do with queen

It is my problem I do not know what to do with queen

as if it

were my position as if it were anybody's position

Like jealousy it were anybody's position

I do know lowness

I give lowness

in deep struggle I give lowness away and go deeper and give lowness

away

Bow and stay bowed convincing

most

of the others I will never return

I say

they are impatient and cannot wait I say they are impatient and

cannot wait

Confessions

I too grow tired and sleepless

4.

Truth is efficient and cannot be called marketry nor social relations

It is a faith to regard honesty
deliverance

And I say a human spirit is partly reckless
partly dismissive

I understand but only few are swelled upon exactness
but the divinities of propagation and lust
are bodily and not so attached to a soul a thought

Darwin is what concern to the smartest
the smartest

I am gone in a generation

Pushed and
with faith
with faith in having experience recorded were there fire
even fire

That is God nor material

5.

I do not know

Art

6.

I offer the
consideration of a fifteen year old

Were I so novel when I am fifteen I fear I
am never so novel like

love
requires

And were there no poems when I have not pushed past
love
[when poems are so important are poems not proven important]
[are poems not proven meaningless]

The body
is
time
and for love the body is meant

7.

Nor I be other than my claims for having learned
[words that are not mine]
I am not too proud and [that] is my defeat

NOBODY ANYBODY SOMEBODY

The absence of

were no mention to the intentions whorling around

society

Nobody is present

starting little

[things]

I am guilty and guilty enough to be

nameless near nameless and

Health too advances say

a mental strains for

the philosophies of Nobodyism are dryness and asexual or either

perverse enough at

an insistence for identity the likes of

Anybody

Who shall dwell within this body when its earliest

germ

is pushed to corners like obsolescence

The Anybody spirit is a learning spirit

The Anybody spirit is without bounds ask

were I the containment of preference like discern

[That] is a spark

Somebody is a spark

And everybody has not yet been brought

SIN

Hell is conditioned and repeated
nor recognized had I known a bounds

The spiders do bring life I say the spiders do bring life I know

Were sin's advance put to goodness
[their] lessons

The reckoning is for having left conscience
nor having carried conscience through
witness

Innocence is believed when death were reported and other

The cryer station proves death
death is low and common

Innocence is inclusive of the knowledge of death
and I have no
attachment to death

Hell is conditioned repeated

She gave away coins that were given to her
she is currency

I am certain for love's stop nor called lowness for certainty I love

and it is no death but life I say
love were brought upon

This

One calls sin nor ask oneself
nature
but judge

WHEN DISTANCE WERE NOT INCLUDED IN THOUGHT

Were left to conceptual poise

the clouds will not travel but wrap around certainty

form

letters

Nor eyes a matter nor the ears nor the hands quite touch

but I am for when grace's discovery is

mentioned

Assess beauty like it were connected to itself

the razor concept is a draw

The line is single

wraps itself around a leaf

Put it in a maple frame and it is done

It is getting good

that a words are old and do not remember

It is getting good

that a words are old and do not remember

For when the pride sits at stones at water like one thousand years past I

am an ancestor I

have always been and

will

O B T

Toe rings and chastity belts are seldom mentioned among
the authoritative and objective sets of
[things]

Presumably the spirit of claiming a division the likes of one and only one
beach

is principle enough for gathering intentions
[though]

ask who will stand for [them both]

when they are blind blind for anyreason blind

when they are deaf deaf for anyreason deaf

when they only can speak nor an ears receive ask

who will stand for [them both]

It were their confidence the

matters of love that I shall find you nor soon enough never soon enough

The jelly roll was not taken even if the pen and the penny [them]

[both]

were taken and I too am taken

for the responsibilities of the takenings of pens and pennies

[I put them in jars and exchange ink tubes and put them in jars remembering]

[Why a pen is favorite like its find]

[Why a penny is important because it appeared on the earth while thinking]

[About babies]

[About them]

ANTHROPOLOGY: THE PENNY RIDE

1.

Pedaled for half a ride the

farm rain building

zoomed beyond a penny

stop and

backwards for having bent past

and found

[cling to that]

The other half push a

penny in hand the rain

builds from [the North] [?] [why the North] [why the North]

I was hunting rainbows [it was rainbow weather]

[It was always rainbow weather]

The turn from [pavement] [it]

[is] about to start when the rain rapid and glorious rain

drops a penny in sadness

[that were ten minutes from its started hold]

[I am humbled]

[Return to oneself for wishes]

[Put a bike into]

[car]

[drive forward home] [I]

Committed for when the rain
stalls

2.

An hour past the loss of intentions

[return to where there is no validity for matter]

I am not reluctant

The rain is stalled

And for pacing in front of a masculine establishment

to make oneself invisible is to have changed from the red and soaked shirt

[nor mention their week past delivery of myself to home]

[inside of a]

[blue Corvette]

I am just in love explain

I am just in love with imaginary [things] resistant to my denials

And there she is

willing to wait nor rainwashed away

[a guaranteed penny]

[Abraham Lincoln is charming charmed lovely]

[Abraham Lincoln is lucky]

You are from 1982 like I was in the seventh grade

TEN MINUTES WERE BOTH DAYS [15]

1.

I cannot take I cannot steal what were

given

[fallacy]

For there are two wisdoms collected

and a clause upon life to say

they gather

[confluence]

[and where the eagles there are several]

[regard gathering is no collection I]

[am I]

Fifteen minutes were both days too and

swelled for

imagination

[that is numbers nor passion]

nor time crested when it were put to clocks and wrists

[areas]

[just simplified and itemized]

2.

Yes

[Time is no invention]

To respect

and say otherwise disrespect there is no

matter to the sympathies upon that which

is [15]

more elevated to begin than

thought

[I]

3.

And you are passing you are passing

Age is reference

[They know]

[less than I]

[they know the tempers the carnal tempers]

[do they not know]

[less than I]

Even if I do know love

[I insist]

[I grow old]

[I grow older insisting to them]

I tell

you

[do you not know I tell you again and again]

[do you not know I tell you again and again]

Smile [x]

WICKED EVERY WICKED

1.

Wicked timeless spirits the moss the painted faces when the
sky is ultimately dark

It were not wicked
nor when the rain and [it] pushes forward further and further into drama
nor it were drama
but littler and littler things and ultimately littler things
[than the rain even]

[I will not wake having known]

Animal is not wicked
it is a misconception that animal is wicked like pagan is wicked
[I do not account the sentiments of everybody]

They were just not so routed nor so
colored

What is unstoppable
and it were uncomfortable that there were little stop to
passion
[nor stop nor any stop like machine nor stop]
[given fuel there were no stop]
[until one sets]
[there were no stop]

Of the lists

mention murder rape thievery the possession the possession

the worst

mention wicked which holds like time

That which brings about character when the bottoms are hardness

[there is no advice from love]

[especially there is no advice from love]

I am only learned to believe I am

owned like struggle is owned

[that is conditioning]

[I go away from that]

[I find little rooms which are not known]

[And were they wicked so too I be like balance requires]

[The mountain is a high enough place to declare such gravities]

[I do not require confession to be]

[There]

Wicked is a fire

wicked is what is done with urine

wicked is counting in force

[I do not say death is wicked nor repeat it is not wicked]

And their institution is made of paper and love enough to believe

it

is

love

[nor I be quite executive enough to have been invited]

[speculation in what goes on within a walls]

[declared love]

[with locked doors]

[I am not invited everywhere]

[I invent]

[things]

2.

On whether wicked resolves itself

It were a moral conditions to say

those hearty peoples are a set

[they play rough and they did not realize I]

[I do not play as roughly]

There are flowers I never called wicked

[they appear and may be as wicked as any]

[I do not believe such]

[things]

[I realize such things could be true though I do not believe such things]

On whether wicked resolves itself ask
whether wicked knows wicked
realizes wicked
for to walk away from that which were not admitted
nor conditioned
[what is censorship]
[for fear is censorship and rightly censored]
[there is reason for censorship]

And the parentages
they speak quietly of deception though [that] were admitted when
it were too early for life to realize
the accountancies prior to the joys the reasonable joys

And I am no child when I am forty and
receiving a democracy

And I do not say wicked is sex for drawing elections
I do not say anything is wicked
I do not know wicked

I am not resolved

3.

Wicked
is
against a will

[Were it so balanced to say redemption is]

Religion is a question and leads to judgment

[that is not mine]

4.

Wicked were the self for error

When it lies flatly into other souls

nor one's own

rested

I do not think of myself

the divinities of selflessness

one is trained for the gifts of the self

[Remark]

[there is her compassion when I am without thought]

[I am still responsible]

[I am still responsible]

[proving]

[proving]

It is love and interest and proving that

I will go to ends

I will advance ends

And no sensitivity to what is later become wicked and
known

A one is given

The machines pull
power is so beautiful and smells so
right

I am given

Nor ask what is wicked

[I am blind to wicked]
[for her I am]
[blind]

And more wicked even to say there were no
morality
no contest to
the acts of push and insistence for
[a specific pride]

Oh justice you are pride
and so divine a features
there is no other concept [nor consider there be another]

I am convinced I

sway I
alternately sway and balance against that gentle growth called
you

Let me in

Let me in

I give [things] that I be let in
I give [things] that I be made to fit
I give [things] that I be given a position
I give [things] that I be given consideration
I give [things] for moments

It were my collapse that I give [things]
hopefully
like optimism for
entry

[That is wicked]

[For its sight its absence of sight for its selflessness]
[ultimately]
[it will not consider itself]
[like a stone will not consider itself]
[there were instances I should have said a thing]

[That is wicked for its thoughtlessness]

[and still take no place for guilt]

[for to continue trying to hold her heart when she moves she moves]

5.

Coins the wicked coins the counting coins

collected numbers

efficiently

[Put them in a sugar pot]

[honey pot]

[for when coins are needed coins are kept there]

The coin fell from the tabletop

the floor caught the coin

with a sound

[This coin is reserved]

[put on the outside table with the weather]

[near the birds]

[simply]

Were it not money

it might have been food

[A lesson is similar among]

[material]

[when a coin is no monetary value but everything]

[thought unto decimalism]

[and it were still material]

What a coin

is

the screwdriving coin the jingling coin

the contemplative coin

[The coin were a baby]

[nor the coin a baby]

[except for them]

[For that which takes]

[the coin is a baby for that which takes]

[I am no deception and I wonder at when I will be in love]

[knowing]

The contemplative coin

is

speculation

[Nothing is proven]

[really nothing is proven]

Really nothing is proven

5.

The wicked convince the unwicked

it is easier to be convinced of wickedry than of
wickedry's weakness

Wickedry is firm

wickedry will not move

wickedry is hard and arranged and figured

wickedry is exterior

wickedry is the opposite of morality

[Who is morality who does suggest morality]

I suggest morality

say

there are lessons for when failure is important

[They] must see failure

before they graduate they must see failure

[No]

[and what is strength and what is contest]

They are forever

having orgasms

For their animations and then sleep well

[But they were not touching]

[really they were not touching]

The unwicked are never convinced the unwicked
submit

And if there be a lesson in submission
[like]
[we grow strong]
[while I am quiet and moved to quiet]
[I grow strong patiently strong]
[I wait]

The other
nor is wicked the other

From wicked the other is neither wicked

The opposite of wicked
is
important

The opposite of wicked
is
balance

The structure of revolutions were to wicked's opposite
and say
when wicked's opposite were structure
the structure of revolutions were to wicked

The bad poets met at
the other house
when good were too

The bad poets met at
[where there were no conditions]
[put name here]

6.

Wicked every wicked

The sex the violent sex expectant sex when there were no
love for push
but time were
just

And it were carnal like the trees the grass
[the grass must be kept]
[kept and cut]

The lake the wicked lake
the soil
the soil is sex and wicked every wicked

[For its hold upon my soul]
the way the soil has a place for my soul
for I am everywhere otherwise

importantly everywhere

[They keep fixing things]

[they fix things and keep them]

Wicked every wicked

And were I material

There were Jesus proven

[and the others]

[They did not understand]

[like I understand they did not understand nor can they]

[understand]

[I will forget material]

[I will go away from material and I will return]

The bed is a universe

the bed is not a universe

That which discriminates

That which knows no separates

The bed is a universe

the bed is not a universe

[I enter sleep]

[delicately thinking I enter]

[sleep]

Wicked every wicked

The clouds the wicked clouds

I will prove to you the clouds are wicked

For their sound the clouds are wicked

for their beauty the clouds are wicked

[the clouds are silent and do not convince]

[the clouds are silent and do not defend]

[the cloud is no law I know]

The cloud is beauty it were purple

magenta and purple at times

the cloud were pink and full

[I cannot turn my eyes from that which]

[is]

[beauty]

[the clouds are a distraction]

I am distracted by her breasts

Her temper

I am distracted by her temper

Nor only the clouds are wicked

I put my head into thought into hiding
when the shore were so continuous

The shore were so continuous

[Spiting the wind]
[the occasional moon]
[the birds and I]
[I am no matter]
[I go away]

The shore were so continuous

7.

The wicked information
who will say the animal without news is wicked I
am convinced
the animal is animal

Look upon the animal
it walks on arms and legs
it grows wings to move around
[it takes pleasure in that I know it takes pleasure in that]

I use tools

I am different

[I attend church]

[I order books from publishers]

[I make books]

[I do not call the animal animal for not having music]

[I stop the guitar for its wickedry]

[They]

and whether they put art in places

I say the difference

there were animal for not knowing representation

so

much more can be forwarded into a place when it

were represented

The librarian is the least animal of all of [me]

I organize

make colors

She wore porcelain covers

I invent sex for her

[believing]

[No]

[she never wore porcelain covers]

[She makes me talk to myself]

[she knows she makes me talk to myself]

[we both love that she makes me talk to myself]

[and we do not think of such things]

[Nor I use the word perfect for organizational skills]

[I use the word excellence wicked excellence]

[I want to sleep forever with you]

It is wicked for such greatness I am

no longer fifteen

I make law

I walk silently knowing what is correct

[Believing]

I will be taken and already have

[excuse]

[I wait for the introduction of lessons knowing]

[there is no introduction to such divinities]

I am

[This is not boredom]

[I go to museums]

[I choose colors and change again and again and again]

[Do it again]

[Do it again]

Oh carnal do it again and again

I will not remember place

8.

Wicked is sleepless

It has no bones and no shell

it will not stand upright

It thinks to distortion

It thinks to blindness

Wicked is sleepless

[and only knows tired when another is tired and introduces tired]

Wicked is sleepless and defensive

[I am afraid]

[For when the eyes are closed in the clearing]

[there are larger creatures which do not stop at calm]

[as if I were that]

[I]

Wicked is sleepless and did not start that way

[Fear is introduced]

The methodology in which an object is taken is
supposed by the
environment

[There are eyes listening eyes]

And it were no suffering that
a hostage is earned

[It will be fed]

[It will be given time]

Until it sleeps comfortably on a simple mattress
without interruption
it is a measure of intentions

The weather is common outside

too common

[Threatens like degradation of faith threatens]

Wicked is sleepless

[degrades]

[casually with eyes]

9.

The degradation of love is my constant I

love

all

equally and enthusiastically

Today is perfect I make today perfect

I know

today is perfect

nor reluctant and the rain is nothing the rain is beautiful and charge

I love the rain

when it interferes

[Today is anyway perfect]

It were the wickedry of tomorrow

the afterthoughts of tomorrow's envelope

upon a presence

[Love's degrade is wicked and fearful and yellow]

I think broadly enough to pride myself in
[that]

You are today

[And I bring you into tomorrow]
[slowly]
[but it were not tomorrow yet]
[apologies]

The degradation of love were tomorrow's introduction
early

[It were wicked to say time]
[is]
[when it is not]

I buy a new watch
a motorcycle requires a watch
[no]

Ask were the degradation of love
that I am not creative but insecure

Wicked is insecure
Wicked protects itself when it is not humbling itself

10.

I have no more for wicked

I only see wicked

[I am not wicked]

[I am not wicked]

[I do not hurt]

WHAT IS TRUTH WHEN I AM RESTED AND THOUGHTFUL

What is truth when I am rested and thoughtful

The birds will close my eyes in thirty minutes
I am not a spectator

I go
I go

The arbitrary book is truth
for its time
the arbitrary book is conducted
rented

I do not sleep when I am rested and thoughtful
I do not sleep when I am rested and thoughtful

She were truth
[I impress her]

Academia is a whore
museum is a whore
[museum loves gold and other colors]

I observe the distance
the mechanics of a clock require distance
[that is not romantic]

[and whether to decide if that which is restrained consider itself truth]

I am not restrained

I drool in words until they arrive

clearly and recorded

[it is process]

[Until we humm]

[it is process]

She were truth

[I impress her]

[I say that I impress her]

[I cannot remember if I am called]

[I act as though I were importantly called]

[and it does matter if I were called that I were not arbitrary]

Imagination is a whore

calls x's and sex for freedom

peddles profit and beauty

The imagination is truth

the imagination starts plumbing and comfort

For when they are unsettled

the imagination is truth

HI COUS COUS

Hello fragile want

Smile at what is given in

At morning were light

IS HE STILL COUNSELING THAT POET

Is he still counseling that poet

having retired

gone away from health symbols

I say you are a name dropper

link things to systems

you do not create your own system

[I say you are not imaginary]

[enough]

[Smile for sex]

[because you are a body]

[now]

Is he still counseling that poet

O

he who lives without

among little little wealth [such is said]

[I cannot take his imaginary soul]

[no]

[I contribute to that]

Is he still counseling that poet

for it is his training

for it is his training

[And were it my submission]

[for the let of imagination]

[away]

[But sleeping is near to as profound as research]

[no]

[You are tired]

[reckless and hungry]

Is he still counseling that poet

regard

a poems are only sometimes questions

That poet is a lessonist

That poet is a lessonist

[A lessonist]

[I have not decided]

SENTIENT

The proven pollen
staged a hold on life when
the other invisibles were not finished

[I did partly believe]

I go to sleep ask
whether they are listening like they know tomorrow

[I have never ridden in your car]

[attractive]

It is required of space travel

[progress]

[medicine is when poems]

[the psychiatrist prescribes a slushee]

[red]

[The required]

[Cruise control]

They were submitted at
an early enough stage to listen

[I was submitted and did not know I was submitted]

[I love it]

And do I say [that] for

[pause]

[I was submitted and did not know I was submitted]

No

[I love it]

I know why the caged cat sings

And whether sickness exists among sentient forms which keep to themselves

[is]

a question of faith

[perhaps]

[or a question for I have no greater thought then the health of the sentient]

Sickness is time's erosion

my faith is always to permanent things

the degradation of love

What is strong and permanent I

have never minded the rain

[the rain is necessary]

The rain falls onto my arms

[The blessing I adapted is a prayer]

[I drink the rain into my self]

The economy

[I quiver]

[Nightingale]

GEEKSHOW

Rain I

still pedal my bike

[My foot falls off embarrassingly I am shy it is something I do not really share
with too many people]

[I show off]

[when they are better than me I do my best]

I have been here many times

I come here frequently

[There is background noise]

[Inwhich I lose myself]

The quiet things are the most known

it is an advantage to have patience

the quiet things annoy some people

[The antennae are just for the show]

[they do not really gather information]

The chicken had not a head

IT

1.

Is passed along

[Jesus held]

[Others hold]

[others keep]

2.

Whether there were a single it

no

concepts are many

[it is my opinion that concepts are many]

[I do not celebrate the manyness of concepts it is just my opinion]

But God

[refrain]

Who holds God

who will not grow old

who makes the weather

[who stirs shit]

3.

Responsibility is enlightenment

[she claimed my bones]

[and I held nothing away from her]

[I reclaim nothing]

[when it were ended I reclaim nothing]

3.

It is a nightingale

[thrush]

It answers like the wind answers

It is the wind

I did wonder who the wind

[and authority mentions IT]

4.

Starvation

I say I do fast I eat nothing until time is figured

I am otherwise a slave forever

Tonight it is spaghetti

[but not really]

the noodles are added to the tomatoes with olive oil

[the homemade sausage]

[sacrilegious for]

Italian parsley

Otherwise salad [anchovies]

[bones]

Corn on the cob

Beer I have made

[Trappist]

[I follow a recipe]

[I am not a monk excepting brief prayer]

[I am no comparison]

Nor to give away divinity excepting she asks

yes

[Fuck yes]

5.

Slave is a word

I am comfortably employed

Nor slavery a reference to employment rather

what is expected

upon

[nonlimits]

[Sunday]

[sabbath]

[other days]

[all days]

6.

I hold you in my belly like sex

[I do not wish to grow fat]

[they should not know I hold you in my belly like sex]

[I cannot forget how I attached myself to you without your consent]

[Blank]

[It were memory]

[the mention of family]

It is a symbol

7.

How closely I regard Mother Mary

I

was married to the same

[It is a question of time to say a two peoples with common names are likewise experienced and a two accountants are likewise experienced]

[I insist one Bruce is not another]

[Insanity for its consideration that a conscience is shared]

8.

I cannot forget how I sometimes think what you are thinking

[I love to think what you are thinking]

I do not love everyone

I know of no person murdered nor can say I shall

[hate]

[I am blessed to say I know of no person murdered]

I have not been tested as to whether I am capable of

[hate]

[I am early]

[they]

[make parks for me to get drunk in]

9.

It is sex

it is temptation

it thinks for me

it is gluttony

[it is that which pulls me from the machinery of mankind]

[only authority can make the declaration of it-hood]

[really]

10.

It is fucked

it is used

it is an object

it is not humble for it has no thought

[no]

[I believe differently]

[Compassion]

[It is grown to believe it is used and fucked]

[it is grown to believe it is an object]

[I love it]

[I do not deny I love it]

[nor do I eat it]

[I wish to marry it had I a memory of love]

[I love it]

[we are grown together]

[naked]

[really but such things do not matter eloquently]

[I love you]

11.

[Address]

It is not the clothes you wear nor the automobile

[excepting the economy]

I am public relations and find your reckless divinity erotic

[they grow attention]

[I am listening because I otherwise know no answer but to speak without ends
speaking speaking of objects contemplative objects with old and useless
references I gaze into your intuition and find no place for myself]

[I do not exist]

[really]

[excepting I visit with my own importance]

[Reckless reference]

[you are two thousand miles away and healthy without me]

12.

I incline myself to say it is that
upon the verge of self sufficiency

[the rest of us wait intimately like for a baby being born]

He will one day be independent

[he has a penis]

13.

Hope is religion and speculative

[there is no certainty]

[I buy gala apples from different places]

[I have no contest for Braeburn or Red Delicious]

[I like apples with peanut butter on them]

[a species is no answer to what is in a soil]

[Like when a psychiatrist]

[responds]

[a prescription is for ice cream daiquiri ice slushee]

[for the sex]

[for the sex]

[Inhibition]

[her breasts were exposed]

I still claim hope is a church and anything else it wishes to be

[I make no bounds for hope]

[I have no dissatisfaction in hope]

14.

It is a word for the indescribable

[the blasphemous]

[that which calls God when God need not be called]

[I say call God every time]

15.

It is not instructional technology nor [whatever] [computershit]

it is not Italy

[Unless I say it is Italy]

[anything is anything if I say it is anything]

It is used in language

it is a pronoun

[They have cornered upon method]

[the psychiatrists have cornered upon literary method]

[they]

[they have exacted the proper location of it]

[it]

[We are forming a posse]

[the hoplologists are forming a posse]

16.

It does not require a piece of paper

[it goes about its business]

I learn a privacy

upon my relations

I learn a privacy

And there was too much sharing for

megalomania

[the rest]

[the rest]

[Autism is no coincidence nor offend the medicalists]

[even a monkey will type]

[it is assumed even a monkey will type]

It does not require a piece of paper

Agreed nor I

require a piece of paper

And ask for titles

nor a marriage

[this]

[excepting they address themselves as married]

[It is a contract]

[Written]

It does not require a piece of paper

[paper is nothing but it burns]

[burning paper fills the air with itself]

17.

Nor it a remembered number

The economics of baby delivery were

[in part]

sperm

[of course there are other]

[things]

The wine got her drunk enough and
the anchovies
[I never did appreciate anchovies like herring pickled herring]
[I guess I just started]

[I do not claim to be early any longer]
[a couple others have arrived]

The economics of carrying a family were
unique from sex

[Requires]

[Money is stupid damn stupid]
[I have said it like I say of art that art is stupid damn stupid]
[had there been no one to decide for it]
[it would rest]
[it would stay in pockets and not be looked at]

Money is currency
for family they resort to pies and islands

[Counting]
[fun counting I convince myself counting is fun]

[But I ride in boats on weekends]

Nor it a remembered number

I think of things for particular numbers

it is an association

[I know associations go away]

[associations may be exchanged like currency]

I was traded to yellow and back again

I once considered myself blue

I claim green for the instant because Spring is new

And whether to say I trade

[stuff]

[yes]

[apologies for that I am otherwise a planet without exposure]

[nor require an orbit who could care of orbit]

I trade institutions

I trade words for words

[I am a poet]

18.

It is a variable like

a species which has not been catalogued

Long has there been reference
[the folklorists]

It is the rain which started the question

I go to church and ask what a church is
[and quietly speak to my conscience]
[throughout]
[the homily]
[it were wrapped at the end]

For theory

to believe that something anomalous must first be
[called]
[declared]
afore it be entered and recorded
[formally mentioned]
[credible]

A concept goes from zero

[zero is not a number]

and given a cloud of a shape theory assumes

a character of modernity

[that concept]

will come about

The cars are more colorful than they had been

[I hear of shark blue]

It is important

19.

And when it were nearly finished it steps again

Are you fearful for its elusiveness
who will be led everled

[There are enough divinities to keep a poet entertained]
[I say such things and]

My only boredom were cleaning

[yuck]
[admit it is required I have slept in earthly places which
make me dirty and cleanse oneself in several of the other
ways]

[And I am civilized and I do not call myself civilized]
[civil matters are not between I and anyone]
[excepting they are present]
[civil matters are not between I and anyone]

Responsibility is to say the carnal ways expect and
to otherwise live among rainbows

[I do not claim a life is pain and I do not know what it does claim]
[nor the association of burden with the maintenance of special formations]
[they were just decided that women need be pregnant on occasion]

[It is love]

[ask were it love to regard a body as shared]

[were it not my body]

[That is philosophy and I claim no passion for philosophy were it severed from]

[faith]

[And whether one becomes insane]

The social limits of

[that]

type of truth requires exchanges

[currency]

[there are many sets and I have never known set theory but expect its
introduction need not neglect liberation theology]

[Mathematics is a word]

[I have never been to Honduras]

Defend a stasis

I do get tired and sleepless

20.

And having turned upon the divinities for answer

[were baptism its put]

Regard it were delicately alive as any
[it does breath its chest moves up and down]

21.

Tag is a game of it

VERBENA

Verbena

is

[a pink pig at the biggest hospital in the world]

[verbena is a pink pig]

A common association

is

[purple]

[Purple is a bra]

[and homemade spaghetti]

[That]

[is]

[a different usage]

[qualified differently and more importantly]

[That]

[is]

[unqualified for numbers]

Or to say verbena were red all over with a maroon hood

[really]

I can say anything Volkswagen

[I said I like it but really I love it]

[too]

[after she said so I just had not thought so intimately yet]

MULE TRAIN

Push on downa trail

mule train

slow mule train steady

go

Packs onna back

Mule train slow train

gets there

Pots clanking

ON THE ZAPPAGE OF LIGHTNING

No

I was referring to a bicycle ride in the rain

[The motorcycle is in for service]

No

rubber tires do not keep away lightning

I think you would get zapped pretty good

[I do not know where lightning takes that which it takes]

THE ILLEGAL POEM

The illegal poem was illegal because
it was from someone else
besides the author saying they are the author

What is original

When the University of Chicago introduced me to meta authoring
[really I have never been there]
[and I realize people cannot be places]
[nor institutions]
[all the same]

Defeated to say no idea is original

Ever

Ever after when one gets old enough to really know the meaning
of ever

The legality and illegality of anything is
located on one of two sides of
[her]

THE GLASS IN MY STOMACH

The glass in my stomach rattled last night

Midnight

Leaded glass is strong

I do not know which can withstand a greater temperature
lead or glass

A candle in it

[a candle is not that hot]

[Sometimes intentions]

The adjacent crystal skull candleholder
cost the same amount

[Macy's yes Macy's]

It sounded loudly

tink

[a candle continues whether a container continues]

The glass in my stomach
rattled

[and the car drove away quickly sped off]

[the window was open]

Air
