TASTE . AND ONE'S OWN TASTE

]five senses ofwhich
newly opened bottle of wine for smell I remember red
ambience of first light afore sunrise
how cold how fresh a morning is
a sleeping bag
a face exposed to see the stars go away
pass
for morning
the sound of a beach
taste orange juice
to put oneself among
an environment favorable to preference
say experience having experienced
preference is upon

HYPERSTITUOSITY HYPERSTITION PARANOIA AND THE VIRTUES OF ETHNOASTRONOMY

O to name a star nor
 an other soul shall know
 a folklore is
 genetic
 phylogenetic nor only say
 the genesis of idea
 had I not previously known ideas are social like
 language
 as is naming
 the ethnoastronomics of folklore are
 how we get along
 are not the ethnoastronomics of folklore how we get along
 a question is simple and
 were I to have only answers [then]
 there once was a papyral text referred to as monologic in
 form
 like aristotle is monologic
 upon research [things] are said
 understood
 [foundations]
 and whether aesop was male or female I believe aristophanes was female
 inthat a community of women withheld lovin' from
 their husbands in the interest of war prevention
 [it]
 is important to me that aristophanes is female
 the aristophanes dialogicism
 the shakespearean trajedic dialogicism
 others
 [comedies]
 [including those divine]
 and the novel including
 ernest hemingway's six word novel is or is not dialogic
 a baby name book has fifty thousand baby first names found at new bookstores
 including definitions of names etymologically speaking
 to be added to family names for various certificates and licenses throughout
 a lifetime
 that one call something
 what does the something grow into
 what permanance does the something have now called something
 and soundness to the name itself denotatively mentioned
 now attached to
 the most permanant [thing] imaginable

IN THE EVENT

the cataclysm
 when there is no more sun to warm the earth like
 maurice sendak is
 the movie nor the book
 a boy and his imagination and
 the sun
 [gone]
 flashlights to last a rationed month and
 the canned food
 to get cold with blankets and
 blankets
 I have heard it best to die in winter
 in snow
 subzero temperatures fahrenheit
 kelvin eventual and
 dead before likely
 quietly
 and still the wind were one
 to open their windows as they had
 one year prior
 june
 ask were it preferable to die of hunger
 ask were it preferable to die of hypothermia
 and with one's eyes open outdoors
 the stars
 for the others still
 shine and
 the center of familiarity were now
 only gravity and
 without light
 without that which causes heat
 in the event
 were no act of god like tornado is act of god
 the sun just
 runs out of fuel
 the planets still orbit I cannot say
 because
 [because]

WHERE TICKS RESIDE

- 1] weeping willow trees
- 2] dense forests that are dark and echo
- 3] one single full deciduous tree in the desert southwest in the middle of a parking lot

ticks are arachnids
 ticks suck ingest digest blood
 ticks are one millimeter and rounded in shape in my familiarity with ticks

a tick can be removed from one's neck with a burning match and the burning match blown out and the smoldering hot match end applied to the revealed end of the tick attached to the neck of someone if one were to yank the tick from the neck of the neck person the tick head would remain in the neck of the neck person lyme disease may be associated with tick saliva

birds may have ticks in their feathers
 canines who roam the forests may have ticks on their skin

birds may eat ticks
 lizards may eat ticks their skin is too thick for a tick to bite through

ticks may fly through the air on the backs of ornithological birds sucking blood and drop from the birds back into another habitat one hundred miles away to start a new colony of ticks

—
 weeping willow
 hard trunk
 lakeside
 two hundred feet tall and
 a vines bending to
 the ground each
 leaves all the way to the bottomest part
 the vine
 thousands of vines from
 the top of the trunk
 deciduous
 a leafed vines float with
 a moving air like
 willow
 with the wind

THE TIDES

the mud afore
sunrise
hard mud
some puddles
the sun will rise soon the opposite side of the ocean
arrives
quickly and
ankle deep
to be a mile from natural shore
concern and
knee deep
the ocean water
a shell
the natural shore
a water laps as standard upon
shell in my pocket
cochlear
pointed on one end
I have never harvested a clam at
low tide
my army shovel foldable army shovel bent at
the hard mud and
bivalve paste is only
so good

TOEJAM THEORY AND A THEORETICS OF METAPHOR: BUNIONISM NOT TO BE CONFUSED WITH
GOUTISM

gravity is not strange
 one point o
 the value of gravity comparable
 point one seven the moon
 point three three mars
 the weight of the universe is one as well and not to confuse a thought
 gravity is one point o
 one does not develop leg muscles until they walk
 in regards to gravity
 becomes good at walking
 [good]
 in consideration of the weight of a body upon
 a feet bottoms
 callouses
 develop
 with regard to barefoot upon pavement barefoot within kswiss tennis shoes
 barefoot within ski boots barefoot within hippie sandals barefoot within roller
 skates
 there exist roller skates which are improperly sized
 cause foot feet anomalies by any word
 there are diets inwhich people swallow food
 food in regards to gravity is brought to a feet to nutritize [them]
 a food may or may not gather
 form lumps
 can be lanced like a boil
 I once saw a work of painted two dimensional modern art painted in the nineteen
 twenties inwhich a lumped boil as lanced had demonic faces

 ingested
 a resemblance of sunburn an
 heated sensation and
 done
 the
 panoperative nor operative inthat
 there are no parameters when there are no
 parameters
 [what is a parameter] [question]
 [were dictionary language]
 I know a good movie someone once mentioned without
 mentioning a movie
 I once watched apocalypse now seven days in a row
 I once pondered jurassic park seven days in a row including
 mesozoic
 [a broader thought to include trilobytes]
 were a characters present a screenwrite's panoperative panacaeism
 the purple pill
 squished like sugar into five hundred grams of coffee
 I prefer folgers and maxwell house is good once was three dollars
 the full size at walgreens
 folgers is twelve at a local grocer sells organic meat
 I boil my own potatoes
 salmon is good
 french dressing when
 I was a child I ate lettuce raw without dressing with my fingers

 there are acceptable dimensions given
 an established teleology of telos afore an ends are sought thus achieved
 upon an established telos
 the operative domain is an α alpha level [eh] nor
 statistically speaking though
 active

 that I go to [get] ice cream eg orange with chocolate chips and there is no
 orange chocolate chip ice cream today I believe
 I will have the chocolate chocolate chip please

SYMPATHY AND THE DEVIL OF SYMPATHY

on why I do not believe in hell [because]

 am
 too hot or
 not
 enough
 that eighty feel like ninety five because of humidity
 I decide
 nevertheless
 the socks or lack thereof
 the heat index is a social consideration of fahrenheit and
 from al roker
 say empath
 regardless what color glasses he wears
 say empath regarding
 an ascription of how to go about my outdoorsiness for the day
 kelvin makes sense and is only a translation
 seventy fahrenheit is three ninety kelvin [question]

the empath and the pyramid of empathy and
 the started empath
 the self started empath

A BIOGRAPHY TWO HUNDRED YEARS AFTER RALPH WALDO EMERSON'S DEATH BY
MARY OLIVER
REVIEW

ralph waldo emerson wrote a poem called
circles inwhich
civilizations come and go and come and go like nature

ralph waldo emerson lectured at harvard divinity school

ralph waldo emerson college of publishing and printing does or does not exist
in nineteen ninety

transcendentalism was a club ofwhich ralph waldo emerson was a part of mary
oliver mentions in her essay

I am not familiar with puritanism ofwhich new england is associated with in its
early history and may still have been in the late seventeen hundreds and early
eighteen hundreds

ralph waldo emerson invented the oversoul

ralph waldo emerson may have been a mentor to henry david thoreau

if I am not mistaken manual working lobstermen in the boston area in the
eighteen hundreds had free lobster lunches written into their union contracts

THE IMPORTANCE OF VERNACULAR LANGUAGE IS

its importance were
 an etymological foundations discarded
 were a foundations discarded thus
 a language fluid and again and

the importance of vernacular language is a language users
 pride as
 etymologically advanced among similarly foundational
 etymological foundation vernacularities

without regard to an origins I cannot say actual fluidity were there no
 disregard of other vernacularities as well to say
 one travels and a languages are again retogethered on occasion I cannot say
 absolutely as there are numerous varieties of regional relationships that may
 or may not be related to bartering and the exchange of currency

vernacular examples may include ocean lifestyles agrarian lifestyles economic
 lifestyles such as stock exchange lifestyles teaching and literary lifestyles
 [eg]

vernacular language may be usefull among those related to a particular
 lifestyles in a manner of efficiency practicality and social life

may advance generationally with and without regard to etymological foundations

ON THE INVENTION OF MYTHOLOGY

were stanley kubrick the caveman discovered a long wooden bone clobbered a pig
and eventually another tribe

on the invention of mythology

may or may not be said mythology is or is not superstition whether
fact based like
seventy millimeter film or
a potence of factuality in an interest of storytelling regarding digital
cinematography like
cerberus is
a three headed dog and
who can contest
hydra
the giant water serpent lost its only head to grow two others in the one heads
place

and there are dinosaurs [indeed] and there are flying dinosaurs [because]
paleontologists said so and continue to say so with
their own deoxyribonucleic acid

on the invention of mythology

for heroes
was a great man he won a war [recently] [how long a legend] [and how to decide
if there is a better hero before me] [inwhich I shall go to another pancake
breakfast just for all the heroes though one in particular won a war]
[recently] [and or recently rediscovered] [uncovered at a veteran's library]
[wow] [indeed] [what a good man he was] [and his wife] [and these pancakes are
as good as they have always been] [all you can eat]

mythology vocabulary to honor an existing

mythology to explain

there were a flood related to sin

there were a forest fire one million acres claimed one single life and
the forest will be exposed to soil erosion animals and plants will not
propagate for one hundred years until the forest is the same stature it
previously was there was a municipality among most unharmed

say fire is reverence say respect for fire and

HABIT

there were clothing
style
there were a style of vocations

and the habit of material in relation to other material mentions william james
[1890] and
I have not read the book and
there were the habit of people in relation to material

I mention what is gone about

mention natural consequences to find oneself walking in the rain were or were
not one's dissuasion in walking in the rain in the future for finding oneself
wet [after] may or may not be pleasurable

and
upon a reliable nature a reliable material environment one may expect that
which is a consequence to an intentional act

nor person to cause another person [skinnerian]

mention a features of getting a wool blanket from a closet is an expectation of
the material wool blanket and closet and to rest warmly is an expectation upon
cause the closet door to open and reaching for the blanket and resting with a
blanket upon oneself

an habits decidedly as having been effective affective either consciously or
unconsciously ten years [after] beginning a practice for three weeks may be
permanent and without conscious consideration and may be considered [habit] in
a teleological sense and the material practice may be generalizable to other
tasks inthat the eg the fifteen year old blanket-getter may still be of a mind
of developing preferential tastes ie cotton may be warm enough on a cool summer
evening

an intentional habit such as corporate brand preference with regards to an
existing habit the likes of cane sugar soft drink

an intentional habit such as genre of creative interest and research

and fashion is a style and one's own preference

and one's manner of commuting to their standard appearances elsewhere from
their own home

GOOD DEED

yesterday
tomorrow a good deed

all to muster
I held a door for someone
[in retrospect]

good deeds are social nor
a matter of accountancy were I
behind on ill will

'would you like something to drink'?
'water please'
[eight ice cubes as I like]
[a glass]

PARABOLIC EXTRACT OF OPPOSITISM

xyz axis
 flies [about] were
 a line into
 a plane

and then there were many to be considered reconsidered geometrically as
 a report to
 [authority]

they were three dimensionally scatterplotted all about [sir] and

the three dimensional wooden podium nor to be confused with the three
 dimensional pulpit is silent and

an individual attempted to explain the idea of statistical presentation in four
 parts afore noting with laser pointer [in one of the twenty one listeners' eye]
 'three dimensions is far more complicated than a nominal graph however the
 nominal graph fits in a book

nor a question of oppositism or synthetic hegel [just] a manner of reporting

and were statistics including manner without value

were the xyz axis removed upon a certainty of the graphing of the parabolic
 extract of oppositism to say

'most frequently perforated' and 'I do not recall'

'what was the question'

'as philosophy is innate to a question

a shape of a lens

a shape of a literary lens

RITUAL STUDIES IS

quite simple
anthropological [really] were there ritual]
[were I invited] and
to participate is more
theological as anthropological [nor] say
divine

and were recollected as
[I cannot say]
[I once read a book from the university of notre dame book store
[and

[shall I return next week

HOMILETICS

a social context

I once required no microphone in front of three hundred people nor for
need for loudness

a social context what

mentioned
defined [nor]

I drift away in homiletics like

[poetics]

were [categories] to say [neighbor] and
[politics] to regard secular taxation and

I drift away in homiletics like

[who is the violinist keeps looking down] and

[I once said 'hello' to a cellist] and

[the kindergarten piano teacher old lady with her own old lady mother violaist
was okay] and

I drift away in homiletics like

WERE VOCATION ONE HOUR THE SABBATH

were vocation exterior to one hour per seven days

were vocation ministry

were vocation ministry scheduled

were avocation exterior to scheduled vocation

—

and the avocational life

I like pineapples and spicy food

more of a snow vacationer than beach vacationer though

I appreciate acts of god such as waves and forest fires and avalanches and rainbows and the smell after rainstorms

not so into frisbees and rather proud however I once hula hooped five minutes inna row

I enjoy watching hummingbirds spar at the hummingbird feeder

I notice a good thirty five hour candle lasts fifty five hours

aristotle is good easy fireplace reading

one planned good deed ahead of the good deed being completed is important on occasion

what can be said appreciatively of primitive sports though rock climbing wrestling shotputing running jumping

and to notice noticing is not necessarily participation

poetic time periods within a particular geography may or may not be interesting

ON MEDIOCRITY

is statistical

is defensive

is reliant

is huddled

is weekended

air is not water

on the animal kingdom and a thought of religiosity thereof

is a children's book

what eats what

hobbes was eaten conceptually by

fica moustache nigger

retirement in mind

I always wanted a big hunk of land near

some natural sound

I do not celebrate mediocrity rather

pope john paul ii flew to cuba shook hands with fidel castro

plantains fried in mediteranean olive oil with cinnamon and sugar are tasty

'tasty' is a silly word

'tasty' is a philosphical word

I never liked the word 'tasty'

though tastyness may be curious nor
foodie

nor define mediocrity [because]

A MUSKELLUNGE

is a gamefish

is in the waters of the great lakes the same waters as wild rice

is caught with a fifteen foot three pronged poseiden spear

is arrowed with an arrow with twine attached

is forty eight inches in length

eats frogs and fallen birds and smaller fish

has four centimeter long teeth are reknowned for a capacity for removing an
anglers fingers as carnivores in slow waters

spawn

migrate

are and or are not edible

PRIMATE RESEARCHERS THAT RESPOND TO PAVLOVIANISM

on the consequence of limited funding upon
written experimental method
question
of forty percent of requested budget
[thus]

a smaller question a primate researcher were interestee of

1] the behavioral component of banana typology

remains

however

after careful review

2] the bedding study in one of two primate enclosures is changed from silk and wool to hay and the existing nonbedding of cement in relation to the procreativity study

3] secondarily in relation to the temporality of postexistence including procreative studies

a] a brain matter is reviewed under microscope to determine whether the more procreative primates have plaque in their brains

b] the lesser procreative group in the study are observed their final moments for their humanity as previously defined afore the study

on the consequence of interest and future publication the primate researchers are invited to present in hawaii

AT THE FARM STORE NEAR THE TACO BELL

equestrian gear
shoes
power tools
coffee makers
that is about it oh yeah and
halloween candy

I have not seen a lasso at the farm store

and the big belt buckle the size of
a silver oblong dinner plate
is proof

like the winner of the demolition derby is proof

and the dairy queen was not operating the cash register
the last time I was
at the farm store and
her mother was and grayed hair and sandpaper hands I could see from
the checkout line purchasing
grommets and stuff
tools and stuff
ya know
so anyway

diaries are good and all
so anyway

the cheesy gordita crunch is good and next door
ya know

salt licks are for elk as well
sodium chloride
whether farm store salt licks have iodine within and
sea salt
to impress
ocean water has gold within in addition to sea salt and
desalination
may or may not exist at the farm store
regarding
evaporative debacterialization while camping

TO ASK A QUESTION

of who

were there a reason I would ask a question

is there a nature to a question I would or would not ask

I already have an object

thanks

may I say socratically

of authority

THE FOUR HUNDRED ACRE FARM

the fences gone and

october again
the browned corn still will be gone soon

a stalks near to the earth and
snowcovered again
shown in the spring for
the next

there is a farm grows pumpkins for sale by the road and

maple syrup
they boil

the wind across an open land
I once shot a shotgun at a fencepost in january

 [combination]
 there are twenty six letters in the alphabet
 she is in a library
 wearing
 a floral dress with long johns
 are you bicycling [question]

AND THE SUBJECT IS NOT MINE AND STILL

because I have the only frame around the object

is a challenge and still
 the frame remains because
 to change a frame is challenge to
 the contents of the frame
 which is sacred and it is not which rather
 a single frame
 [let] [for a while]

the nature of art and
 it is no helioelectricocentrifugioinducedplasmoticismaticmembranousnewlife-
 istism apparently eternal though ethereal certainly and
 curious
 to say the obelisk appeared one day after man was discovered by his own
 conscience
 [they] [from the group] [all] [touched it]

the idea of the idea gets
 esoteric
 I refer to no individual named [esoteric] who played a transistor radio in her
 front yard night and day for years in a row
 never saw the individual
 the overgrown yard
 the sound
 a nearby neighborhood

a white picket fence
 like all white picket fences surrounded the home

the subject is about the subject
 the object is framed is

phenomenal
