rooms with no windows

require my attention

rooms in which

I cannot get out

I cannot exclude

I cannot sum

the universe

I

go

to

that

like obligation goes to

that

but not only-

I find sex
like love never
having touched
having mentioned
a mortal as divinity
for
the first time

I have always been
amazed
at when
the airs about her
prove her difference

and wonder were
it her control
for I have heard her say
no

without words I have

heard her say

no

I am started

when the imagination

and do I let her go

were there others

so tightly about

to do otherwise

I have said

I am early

some do not know

that I have been

I am not delinquent

I am not surprising

I am not suffocating

I am not aged

are not jealousy

the canyons were not

I too build fences

and tell no one of

proper

I do

do they not wear red

for my attention

nor mention

I am no summary to taste

I only battle what is

different

for my attention until

I too put on red for

its

agreement

and I am the
same with blue with
the primary colors
the others
the others

for I were differently
conditioned than sight

God
I interpret you as
beautiful

the road rises

differently

there are electric

there are

 molecules

which make

unnamed molecules

and I do not

think of them

but when it falls

I am moved and

whether I move myself

I put me

moves me

I too am guarded

you do speak in

metaphors

I love that like

blue raspberry drops

and Israel batteries

and salt sea

grooming products

I wake up dreaming to

that

were there music

now

inspiring

like quiet

and quiet is no inspiration

for it cannot be

taken

quiet cannot be taken

I love quiet and
kiss quiet
I wake up to quiet
over
and again

I touch quiet when

I am alone
I am alone

and having called

rest

insist there is no obligation

[I am no ones trust]

and ask
whether time
might be separated

[that]
answers to philosophy
and speculation

assume there is
no answer
until
witness

and I do not separate

time

but call its union

I sway it forward

together

pulling stars like dust

from the air and

from the night

and giving love

for glue

for their animation

their spirit

and to rely

so largely

on objects for information

when the news

were once adequate

because the birds are

are the birds not intuitive

and the way

the plays

there is insight

in

that

and

were love so possible

to say its

that is faith

you are care

opposition were complement

opposition were complement

will it not

reveal

when I am vulnerable

I patch

by love

but when there

were no answers

I

cannot compete

I

am

required to love

but only the

familiar

and in the
securities

when money were
gone

or either developing

again
like it
does

there

were rumors like

inspiration

there

are rumors like

inspiration

the box

the evening were

planned like

date night

up until

the

kiss

but not to decide

[that]

[yet]

and dreams

the first five

years

thereafter

were

from now

planned on

owning

themselves

but that is no
answer

and
I am no curriculum

but romantic
and animal until
I am convinced
like reason
and

the bottoms
of

faith

do start

I am sure

it is

just

a word

do I not plan

that

that which is greater

and

fuller than I enough

to say

some divinity

were it

fair

but fair enough

for life

nor a thing swallowed

nor taken

I do not
understand

I am told I
do

not understand

and to look

at understanding

it too were

balanced upon

something

[protecting knowledges]

open source

there are no

fences

to night

nor the way

they pass

the clouds do pass

and

accept such

as summary

I am content

indeed

and

the internal blades

you keep inside

of me

for you I

put

them

there

but trust enough

I am your

outside keep

and

where

the prairies

touch the mountains

eventually

we are
