the division
the difference atween
the unfamiliar

andwere I know why
the tourists

[because

one -

a

all the lights were on for the blush wine in the mcdonald's cup with ice night
she sat next to me as my straw reached the bottom of the liquid in the cup
'would you like some'
splash of blush

'is there a bookstore near'
'barnes and noble is not far away'

and so the traveler was on her way

b

irish stew at brocach was good
I once ordered hot whiskey after the other person at the bar ordered hot whiskey they
were on the other side of the bar and I pretended to look around while the bartender
prepared the hot whiskey for the overcoat rainy evening local in appearance fellow hot
whiskey consists of whiskey and hot water the boiling temperature of hot water is
two hundred twelve degrees fahrenheit and I chose not to mention the boiling
temperature of water to the quiet local sipping his hot whiskey and reading the
newspaper in his overcoat at the other end of the bar

baked rabbit with jelly glaze and side of vegetables was good in georgetown
and so were the representations; -all over the place representations

I had an ice cream scoop of potatoes in germany

veggie burrito with sunflower seeds

escargot once

lobster on my first teen [13] birthday

whale was on the menu in norway and tasted like liver with side of vegetables
fried alligator with coca cola and french fries in the everglades was noncelebratory
though we were just driving by and someone had their rowboat in their front yard with
hand painted sign _fried alligator \$4.00_ and looked as if they knew what they were
selling and there was a picnic table

c

watching the tourists as a tourist

d

watching the tourists from home

e

the tourists at the library eat loudly
hard pretzels and apples

the tourists wearing plaid shorts and short sleeved shirts and black socks and teva
sandals and hat with camera about their neck eat loudly at the library
hard pretzels and apples

take photos of electronic moving bookshelves on the fifth floor

giggle

f

the barbecue next door smells good

g

watching the tourists from a bistro table and I am no advocate to watching the
tourists; -I say: let tourists tour

h

the difference atween animal and man is man wears clothing
[dresses on (his) own] [fashionably]

and magnetic north as indicated by a magnetic compass is magnetic north when looking
at a paper map [reference]

and global positioning system [gps] compass has no magnet internal

i

orienteering is an athletic sport

a compass is used by each competitor to locate a series of [physical landmarks]
distances apart and acquire evidence of having reached each of the landmarks and the

first to locate the landmarks and end at the predetermined finish line is the winner

j

the bus stop with the bench

the train station with the bench is quiet at night nor rain

k

a park ranger encampment it is winter the park is closed as thoroughfare

yellowstone national park

sulfur from the ground amid snow

the park ranger lives in a one hundred year old stone cabin

says hello wears a yogi bear hat and drab green clothing

in the summer there are fifty four buses per day with people with cameras

l

if only someone would write rhyming poetry

I would understand the nature of poetry

is walt whitman invented free verse poetry

and nothing is the same

m

watching the penitent having

penanced

[thus]

[because]

[they] are fun to watch

-

and about social prescriptions

I enjoy cream and sugar with thirty percent cacao [milk chocolate] to the seventy percent cacao [dark chocolate] I would consider chocolate a social prescription were someone so determined to insist I try chocolate

I do not recall having socially prescribed any material substance nor plan a future campaign of social prescriptions however I enjoy properly prepared salmon

n

what is a tourist to the government project on the edge of town with the disposable quonset huts

and the tents

and the government workers in grocery stores

and the alien spaceship in the farmfield

and why are all the trucks green

o

among the animals the feral animals with
no designation

the feral animals

what is wild and were I

am a tourist

and the eater

were the eater new and eats and stays

and were the traveler eater to consume consumptives and
begone

a several conceptions of nature [that]

1 nature is whatever happens including concepts and their union and disassociations

2 nature is what is uncivilized

nor is nature fenced

among the feral including the badgers the wolves the bison the eagles to raise human
being children

for to fence were the fencer the greatest nature I cannot say

and what is unfenced and what is fenced may be of population density questions by
wildlife biologists including ranchers and fish farmers and kelp growers were kelp
tasty

to observe nature fence nature from the perspective of an [exterior perspective] the
wildlife biologist may be a matter of invisiblism

what is objectivity

to say a bird is attractive in soar in windless summer is a subjective measure of the
bird

an objective measure of the same bird may be numeric

both objective and subjective [lenses] may be invisible to the bird and what the bird
chases

a feral animals without designation because they are wild
were a poet to [call] what is unknown by name [then] a characterization [is] and a
matter of psychology to the poet aswell a matter of potential wildlife impact to what
is observed by potential policy by potential action

andthe tourist

andthe camera

andthe painter the easel

the writing instrument from memory late at night

p

to sit on a beach from noon until sundown

inchair

one can jump in the water reach for chips and sandwich from their cooler

there is a sound

there is a pier

there are people on floaty things

there are sandcastles being built and people being buried up to their heads by their
children

a ship on the horizon

crosses right to left all of an hour

and the clouds

q

old negro poem one hundred fifty years ago comes to mind

I could watch the weather

and I have never read uncle tom's cabin and
harriet beecher stowe was no poet and I am not aware her social standing
I have a copy of her book
tattered spine
on my shelf

in the winter

I plan to camp on an hill in the near future
it is february
snow on the ground

with two sleeping bags nor tent and three miles from my home
I would like to watch the night sky with binoculars and
fall asleep

r

and typing is no acrobatic feat
george winston stepped on his grand piano pedals with wool socks in concert
walked to the open part of his piano and plucked strings
returned to his seat without tails and played like a piano player

were I the tourist at his concert and
were he watching me like a question to his audience
one thousand miles from his montana home

s

the thing about ski poles
ski poles are not for balance
I once learned

and I am aware who
has not learned ski poles are not for balance

t

and the water skier
first breaks the wake on two skis
says
I can get up on one

the same rope
behind a snowmobile

u

and a friend went to france
I have never been to france

old news

nor have I been to copenhagen and
there were a smoking area in the airport

v

the xylophone player
the xylophone maker
two by fours cut and sanded properly to tune
the first
thirty six inches
the smallest
four inches
four octaves
made of wood and
mallet
for each hand and several on occasion
in each hand

w

billy collins mentions in between his poems at a reading
something to the variety 'whether a truth to poetry'
ie
'whether the poet makes things up'

x

a poet is anything though a poet for
their experience is
exterior
to what is written

and the tourist
ask of vacation
to regard vocation to regard avocation and
vacation

and what tourist asks of vacation while on vacation perhaps
and vocation is one's spirited employment
and avocation were as spirited

and were vacation a physical travel
yes
and were the tourist

and the journal
I am no journalist I am no notetaker and
recall from a poem
[then]
and you cannot
and were code I cannot say nor explain your miscomprehension nor explain

your absence of invitation including
your absence of mastercard visa united states currency for
my poem

y

the tourism of graveyards
the balm day

is 'poultice' is one familiar with the dead

headstones names a trees
and near the far from the road the limbo area
wherein an unbaptized are buried an headstones with and without names but deathdates
the same cemetery as their parents

a war veterans' area with headstones alike

an obelisk

and there is a crypt wherein an entire family members each have their own shelf for their ashes with their name upon a stone door

z

the alphabet is twenty six letters of symbolic forms to exchange thought by way of ink bywhich a letters are combined to form words a words are combined to form sentences symbolic forms such as periods question marks exclamation marks punctuate sentences sentences are combined to form paragraphs paragraphs are combined to form chapters and chapters are combined to form books inwhich stories are told in whole

is a concept the idea of a book

is a concept the idea of a novel

ernest hemingway wrote a six word novel resembling a poem:

for sale

baby shoes

never worn

inwhich I could interpret as tourist an unborn or otherwise missing baby for the shoes never having been born

is a concept to say poem

is a concept to say music without music being played

is a concept to say light were one in the dark

is a concept to say the concept of potential

is a concept to say leaves will return in april when it is january

is a concept to say an aspects of one's favorite poem

is a concept to say grocery shopping without mentioning particulars

is a concept volume

is a concept style school philosophy

is a concept democracy

I a concept to say 'I am' catholic 'I am' democrat 'I am' teacher

what do you do

is a concept to say homemaker

is a concept to say statue

is a concept to say constellation

the big dipper is particular and points to the north star

orbit is a concept

penmanship is a concept

painting is a concept because their is no painting associated with the idea of painting

and what of knowledge assuming one has read a book
and were there nothing of interest [then]
and were there something of interest and a measure of relation to a previous book a
'concept' a 'concepts' of relevance to both and several books a new or existing
concept is born or is cause for enlightenment in the reader

to what ends ask of the reader why do you read need one conviction

there are reference books aside a dictionary and map
how to camp
how to count how to measure how to sew may be curricular text books in high school
how to build an internal combustion engine

and the novel
what every writer desires completion by their sixtieth birthday
the one great book

[really] who writes for another
and to say publishing sales are important is reference to the next publishing contract
or lack thereof

will the writer still write

-

the tourist at the bookstore does not care whether the writer writes for the writer
not writing is not found at the bookstore for not being published

pocket books are from
city lights publishing company
great books foundation from the university of chicago
pocket books are four inches by three inches and have cardstock [paper] covers
an owner of a collection of pocket books may leave their entire collection with an
used bookstore and the entire collection can be found all at once
city lights books are collectible beat poetry from the sixties
great books from the great books foundation at the university of chicago are classics
such as aristophanes aristotle thomas jefferson

two -

a

centerline

how a skier stands on the fall line

centerline

the descriptive manual of the professional ski instructors of america on centerline skiing including accompanying glossary for young learners

fall line

were there a rocky slope

the way a water would travel

were there a snowy bumpy snowy ski run down an hill

the way a water would travel

and a skier before gravity

during gravity

centerline

a skier can stand in proper posture and turn on the flats of their skis full turns

a skier can accelerate out of a turn

after having turned on the flats of their skis

-

the steepest moguls I have ever seen

was a way one hundred yards from the ski area to the jacuzzi behind our weekend rented condominium age ten january nineteen eighty

from the ski are very steep called lower hades nearly dark sundown rather short three hundred yards to the bottom to the jacuzzi

as steep as seventy degrees downward and moguls three quarters as tall as I at age ten slippery hardpack moguls painful moguls

-

I stood on a forty five degree slope with fresh snow somewhat glade and the snow I was standing on slid forty feet [solitude utah]

-

the trees are quiet

b

the snowboarder from the chairlift

c

the tourism of the taxonomy of the animalia kingdom

sharks are cartillaginous and have lateral lines bywhich a sixth sense
sting rays are also cartillagenous

birdbones are hollow are lighter weight

gills may be present in mammals and are gone at birth

death is imminent

the lifespan of an human being is seventy six point one years of age according to the
american medical association political action committee with relation to the national
broadcasting company channel fifteen locally

the lifespan of a cat feline is fifteen to twenty years of age according to the local
humane society

the terpalin lives one hundred twenty years old

and the snails I walk upon to walk a canine around the block crunch under barefoot

wolves are a predator hunt in packs

and the migrations of monarch butterflies are in an interest of species survival

and the spawn of the salmon

upriver

the parent is dead for the grizzly bear yields to the kodiak yields to the polar

d

the formal tour

the tourguide with the microphone on his chin on the bus so the microphone does not
move

it is a good life

e

the professions include

creamerist

photographer

atmospheric individual

andwhen the creamerist harvests the cattlemilk

andsome is frozen with sugar

f

the antfarm of the child on the dresser is kept with bottlecap of twenty drops beer
and pinch of sugar

the visible holes like underground

the tunnels of the medium black ant

the ant lives under a rock in nature with other tunnel burrowing ants next to the
horny toad under the same rock

the sap of the tree is edible

the sap of the tree is more flammable than wood

andthere is a flower near the dirt road grows automatic every midsummer

honeysuckle

to pluck a small flower remove a millimeter from the plucked end squeeze for a drop of
honey nectar

a large ants called carpenter ants eat

wood

housewood

fallen tree wood

wood lying around wood

large carpenter ants are black in color

and the termite eats wood

and the woodpecker eats critters living in wood

and the bird without predator dies after giving birth to the last generational egg

and the birdfeeder outside the home near

the birdbath of steel from the dead person's garage collects rainwater

dehydrates collects water when the rain

-

there is a cycle to life

water returns to earth after someone causes smoke for water vapor to collect with

and gravity is

pull to rivulet to creek to pond to bigger waters

and were water only

I am not in agreement with the pantheists I am not in agreement with the panentheists

there is an human condition called interpretation of sensation of perspective in which

one object is more important than another

g

caffeine molecule

three hydrogen one carbon

one oxygen

one carbon three hydrogen

nitrogen

nitrogen

nitrogen

nitrogen

one oxygen

the apple left for the birds froze last night

the baltimore oriole feeder is empty for the season

and the hummingbird feeder is empty

for the season

and when it is the coldest and too cold for clouds

[then

[I will take binoculars to the hilltop

[for the stars

[at midnight

i

the tourist perched upon the ground

like a bird

with candybar

I was going in for a slurpee

it was a warm day august

few clouds in the sky

j

there was no camera

and were everything documented in some grand timelessness of etherialism

[captured]

[like a memory]

I have never lived on an island more than a week

were vacation and I had a good time

and the planetary theory of islands

and the individualism theory as each their own island

and the boat as island theory

and the mountain is equivalent to the island theory

is only a metaphor to say

metaphorically

a prairie of grass is an ocean and

the dumped out old truck vehicle without tires sitting in the middle the last thirty

years is not your savior

and there was no camera

and there was no audio recording device
and there was no permanent scratch and sniff to ponder a year after
and there is no equivalent to the taste of a stick of wheat in the proper environment
and the air was fresh I remember and cannot be re experience [because]

k

sensation

were the greatest sensation reproducible
at will
and how to discriminate were one in a constant state of elation
were there
another

plane

of

elation

l

the rooftop garden with the picnic table

o to drop a glob of peanut butter
thirteen stories

and a spit a spittle a spat a spattle a spit

I have noticed
to spit off a bridge a long way down
a spit divides [to two] and
each spit will subdivide [unto to more twos] [each]

and the picnic table

where the ash tray

near the sculpture by the local artist and is or is not somewhat good
'a nice day for weather' 'eh' [question]
'had I a garden I would decide'
'fifty percent flower garden'

'fifty percent vegetable garden'

'cucumbers are good' 'mm hmm'

'squash' 'have you tried butternut squash soup' [question] 'its like tomato soup consistency and tastes good with bacon and sour cream'

'tomatoes have little yellow flowers' 'tomatoes were once considered the devil's fruit'

'some say onions nowadays'

m

on the observance of tourists

that an economy

she wore a cotton skirt
and tshirt
store to curio store to boutique

the tour to the museum

and she will have a coffee in the open air sidewalk

-

on the critical observance of tourists

taxes are good for ten percent

the statistical way to capture numbers is
hotel data

surveillance
is a concealed microphone

o

and the spy dressed as one among is
the anthropologist

and the anthropologist keeps no secrets
[thus] the spy cannot be an anthropologist

and the spy with objective
and the spy without objective

p

I have been noticed while on vacation

and they stamped my passport

q

they are still living where they grew up

r

I thought you thought

for your actions I have assumed you thought

s

a thought
she wore jeans tshirt nice belt

and suzy too
and suzy wore a watch identical to mine she sat on my right hand side

and the [thing] about culture
the tobacco card was in an additive free pack of cigarettes

and ishi wove baskets in a museum gallery a good portion of his life until he died

and the native american graves protection and repatriation act of nineteen ninety
[nagpra] repatriated ishi's remains to where his homeland was

and
a woman holding two handwoven baskets may be a shaman

t

the advertisement
fish market
the smell of fish market

and the cut pieces to the pelicans
waiting

u

of the twenty six letters in the alphabet

all words can be formed

it were phonemes as pronounciative to limit a pronunciations
and were a foreigners to sound foreign
and the locals extralocals regionalists colloquialists to sound

and the symbolic forms alphabetized
the dictionary
and were denotations for definition

the phonetics of lingualism

and what is only spoken as language

v

the fattest grape in the vineyard
all of them
plucked
squished
and with yeast
a sugars become
woozed

like the pasta and dishes
left until morning

the harvest of a grape must be in october

w

a leather about a book
the title
something academic
upon the shelf according to dewey decimal

the books to last the longest at the library
the leatherbound books are always meant for
the longest stay in the library

there are publishers been around
years and
years
three hundreds of years

x

the smallest category

a conceptual box began with material
the smallest piece of the same material

and a cabinet of curiosity for all the tiny 'chunks'

the rules of collection
1 there are categories

y

in another place

assigned to watch from a watchtower

and go to the grocery store for supplies

in another place

z

the bugs are dead underground

the frozen ground
some snow in the air near sundown

and tomorrow is church

three -

a

were socialisms social evaluation of figure skating
the controversy

and the gold medal to [] having impressed

and an objectivity of a race with rolex timer to compare
the first fastest with the second fastest

the subjective may be qualitatively described

the flower is the most colorful and
of the most colorful the flower is in the greatest health
to be plucked from the ground

the objective may be quantitatively described
were x further than y x is the winner
were b faster to the finish line than a b is the winner

and to regard objectivity in flower picking
the cost to market the retail price
the germination and unto flowering a pickable flower

b

the training for the olympics
the marathon runners at high altitude for greater lung capacity
the shotputers throw and lift weights
the gymnasts stretch
the baseball players practice bunting
the swimmers float around in oxygen tanks resembling deep sea decompression submarines
the equestrians make good with their horses
the wrestlers try on their clothes
the soccer players run with their hands duct taped to their sides

and the concessioners
with cotton candy
with peanuts
with shaved ice

with old hot dogs

c

the tourist at a sporting event

the vendor with twenty four colas up and down the stairsteps

the home team has the first place dugout

I once knew a batboy; -he was a friendly chap at an older age when he and I crossed paths

there is a baseball jersey of cotton button up without sleeves as to choose one's own undergarment whether shortsleeve or long sleeve turtleneck

\$one hundred fifty bones

just like the players wear

d

the whisperers

like authority

and the whistlers when

a birds

e

and the feeders to tourism

the birdfeeders

were a chair to watch

and were night when

an owls answer one

another

the nocturn were a lighted moon

and deers

traveling to the greenspace across

the street

eat birdseed from the ground

amble

[amble] andwith a crackling of twigs and underbrush
[silent]
[therewere six does]

f

there is no air called water
birds are not fish

underwater there is seaweed
fish swim among seaweed

the atmosphere is where the wind blows
above water until there is no air
[space]

semantic to regard one [thing] when
one [thing] means another [thing]

and the club of code requires
more than one person
to communicate

-

to change a language
as opposed to recognizing languages happen naturally in several environs
to change a language to change an existing language may be
to change the content of subject with
the interest of the participators

there were an eighteen fifties when the idea of natural selection was introduced
an academic and household conversation may still not be resolved though
an active academic journal article and bookwriting for seventy five years ensued with
several related concepts
what becomes of conversation
in regards to charles darwin's origin of species and natural selection theories is a
teaching of the original foundationally and a teaching of extrapolations and related
theories in addition to
a recognition of a competitive work force
a recognition of a material culture

a recognition of a sustainable environment in which to exist to prosper

to change a language without a content of interest of subject

may or may not be inspiring

to continue a conversation with a person sitting across a dinner table or

when a written work is not found as important

g

canines are exterior to madison

canines bark

canines walk on all fours

canines eat at the same time every day

canines are female

canines are male

canines are registered with county humane societies

may have been said

dominicans are dogs since the book written on the crusades

were there mascot to religious order I am not familiar with

an ascription and or

an etymological origins [of]

nevertheless the papally accredited catholic university of america in washington

district of columbia, the first papal accreditation in north america ~1960's has white

and gold academic colors and red and black athletic colors

across the paved street from the cua basilica is the dominican house of studies

order of the preachers are not dominicans

order of the preachers are ordained catholic priests

sign their name op after their signature

h

the distance of a to be felled tree

1] stand afar from the tree

2] hold a pencil at arm's length to match the height of the tree to be felled

3] turn the pencil sideways to locate where the felled tree will land after the tree is chopped cut sawed

one can measure an approximate distance of the treetop as well as potential

obstructions or potential damage of the way of the falling tree

i

and topography is a concept introduced to fifth graders in which
a land and the rocks in a land and a valleys and a mountaintops can be measured and
mapped

j

and calculators are introduced in fifth grade following a students memorizing and
applying mathematic fundamental skills on paper

t

what is but
old music is said of the new
there were favorites at a younger age
now as classics understood

she played with santana
the santana of filmore and national anthem at golden state warrior fame

I cannot get michelle branches used compact disk album to work with other older
compact disks in my cd player

nor is her music quite as classic as

what I recall the aerosmith the motley crue the led zeppelin as
classic
were a gathering time of bonfires and stories relevant to
age
were seventeen

and santana as classic fried neckbones and jam guitar
and michelle branch I had not heard of and learned of her growing up location
several years after

u

valuum and the plague doctor

I have not consumed valuum

the plague doctor brings the dead from a homes to a street per
authoritative instructions andwith municipal monetary compensation [that]
a pushcart carry the dead to a particular repository

from the bubonic plague in europe several centuries past the plague doctor

andwith no prescriptive powers the doctor of plague the plague doctor is
required to meet with his / her family physician for
valuum

the plague doctor pays out of pocket for cigarettes

the plague doctor lists on his expenses rose petals laundering of the black robe

the valuum is saved in a small wooden container [vial with cork]
is listed on his expense report to turn in to the accountant for reimbursement
as reason

[for the heck of it]

[will pay out of pocket] [if]

rose petals \$40 laundering \$50 valuum \$90 per each initiated expense reimbursement

the wooden vial valuum into his pocket [his (thing)] and a call

to bring the dead by hand drag by gaff by pushbroom to the street

the beaked longface mache spectacle mask of the plague doctor and the laundered robe
cover the dermal features of the plague doctor entirely the airborne illness is slowed
by the rose petals in the mask

and the dead brought to the street
just like the monty python movie 'bring out your dead' and the pushcart and without any
airborne protection lift the dead into the pushcart several and another and another
until the pushcart is full
taken to receptacle

-

black death
plague
bubonic plague

fleas
insects insectae infection
causal

thirteen hundreds europe
twenty million deaths mostly in europe almost one third of the continent's population

-

were commissioned four hours every october thirty one
the plague doctor
with american telephone and telegraph cell coverage [with mention

how about xenophobia

sexism

do you have any sexism
jingosexism with bellbottoms and

the four bean salad

w

on the joys of planning a two hour grocery store trip which could take one hour

I was seeking bloomers
a peek at bloomers like the cheerleader underskirt garments
itwere natalie portman in bloomers
I cannot locate
will settle on natalie portman in academy award black swan professional ballet outfit
petite

and the eggs seven dollars per jumbo dozen
I have mentioned an opinion on eggs
eggs are dairy products eggs are found next to milk in the dairy case
eggs are not dairy products

dairy products are bovine lactative

round sourdough bread fresh for toasting and with roast beef and swiss cheese
mustard
mustard is good with hard pretzels sweet mustard

the loud pretzel
the intentional loud pretzel
and the raisinettes to stash inna pants for the movie theater

target had bison and may still tastes like beef and I once thought bison was hybrid
for buffalo crossbred with beef

exotic mammal something which eats other things
exotic aves have you any flying fish juice I heard flying fish juice is good from the
old man; -nevermind flying fish are osteichthes have you any sauce for chicken feet
the last time I had chicken feet the chicken feet were chewy and there could have been
more edibility to the chicken feet; -something like sweet and sour sauce
exotic riparian I have never eaten turtle soup a box turtle is good for me I suppose
the shell is removed and the turtle slowcooked
exotic fish there are herring there are sardines lake clams for regional clam chowder
exotic entomology the exoskeletal the crab the lobster the steamed and the landborne
entomology honeybee pollen and honey are the only exoskeletal insect edibilities

'do you sell snail' [question] snails are found on sidewalks

x

on the robot of
massachusetts institute of technology in cambridge massachusetts
I have never met the robot of massachusetts institute of technology in cambridge
massachusetts
the backhouse at massachusetts institute of technology in cambridge massachusetts
institute of technology had an art presentation in nineteen ninety nine in regards to
adrenaline in which taste is mentioned
noam chomsky faculty of the massachusetts institute of technology in cambridge
massachusetts may or may not have attended the adrenaline presentation
I guess there is no robot at the massachusetts institute of technology in cambridge
massachusetts
I agree however adrenalineless beef is tastier per logic and the kill chute animals
may prefer

taxonomy of sound

in silence there were the introduction
birdcall
were four am per my watch and
dark
within instants [then]
a birds unto each
crescendo to
standard

natural sound is a water lapping a river water as constant as reliable
quiet and
the only notice

and were forest for nature
[when]
in winter a wind through naked deciduous a wind whistles through conifers
in summer a wind nor other cause a touching of leaf to leaf were sound and
forest
in summer the conifer wind is the winter wind
for a needles do not fall

and the spawning of a fish is a sound in nature
and the single insect abuzz is a sound in nature

the mechanical sound of man is or is not natural
the vehicle
the engine is a sound

and the crackling of wood burning is a sound in nature

and boiling water is a sound of nature

and the splitting of wood and the stacking of wood is or is not a sound of nature

-

whether man is natural

were there an assumption consumption of an environment by man there is no ecology were there an extinction of species were there a replacement of natural resources for synthetic resources were there a diet exterior to ones' forty five mile existence were there a specialization of labor so hardlined as to define a specialization among unionized sociologists as ecological without regard to a natural ecology were fences and what exists within fences cause for real estate investment and were cause for additional fences and were what is within fences considered natural only domestic and the organization of trade and the organization of natural resources and land management man is mortal and were species come again in policy's absence

whether man is natural

man is biological man is natural were man's tendencies establish his own separation among his reverence among his own concept of nature

whether concept is natural

as language is natural understanding is natural language is between two the presenter and the audience

-

nature is a concept

a broad conception of nature is inclusive of material the earth is material the grass on the earth is material the birds are material the clouds are material light is material is not light material and the color blue [thus] [and the others] material and the telephone poles [is a question whether telephone poles are material] and the barbed wire [thus] the domestic woolly bovine without fence and the bell about its neck and the trees up the hillside the steepest hillside bald on top for stargazing the stars are material and the planets away the planets are material and pluto's moons are material and classification the milky way galaxy is material were there a plurality to separates and the constellations are distant and I understand them as material and the

ocean bottom the coral the deepest life the sand settles to the bottom and can only settle because of gravity and form sedimentary stone were there no ocean having been brought by the settled sands and water drained and gone and the lava so too from deeper deepest beneaths is material pushed like heated water reaches a surface and cools volcanic rock sharp once liquid sharp now cooled rock and need not be called material and the little birds darting back and forth with little gulf waves eating sand crabs and the rain and the container ships on the horizon there is a foghorn a mechanical foghorn there is a lighthouse a mechanical lighthouse once lit by fire and the sound of an airplane the sound of a train the sound of a train crossing ding ding ding red light red light red light

nature is a concept

and a person requires like maslow requires unto self actualization

and an order to sustenance having been observed is easy to agree ecology and the administration of grocery items of an assurance and who does and who will consider themselves responsible were there authoritative interest

authority is a concept

parenting is a concept

paternity is a concept

fertility is a concept
